GREEN = New for 2020

PURPLE = Limited Qty

Scientific Name	Common Name	Size	Description	Now
<b>Perennials</b>				
achillea	yarrow - various	Qt	Sunny seduction', and 'Oertel's rose' and a few straight species, full sun, med to dry soils	blooming
actaea pachypoda	doll's eyes	1 gal	white blooms in spring turning to white berries in summer, 2'-3', full to part shade, avg soil, berries poisonous if ingested	ready
actaea racemosa	black cohosh/fairy candles	2 Qt	white blooms on large spikes, Jun-Jul, 4'-6', part to full shade, med to moist soil	sold out
Actinomeris (verbesina) alternifolia	wingstem	Qt	bright yellow, daisy-like blooms, Aug-Oct, 3-8', part-shade to shade, med to moist soil, high value to pollinators	one avail
agastache foeniculum	anise hyssop	Qt	purple blooms, late summer, 2'-4', full sun, avg to dry soil, attract pollinators/butterflies/hummingbirds	ready
agastache scrophulariaefolia	Purple giant hyssop	Qt	Very pale purple blooms, up to 6', full to part sun, dry to moist soil, attracts numerous pollinators/butterflies, birds feed on seeds	ready
allium cernuum	Nodding onion	Qt	soft pink/lilac blooms, late spring, 12-18", sun to part shade, med to dry soils, deer resistant, attracts pollinators, host plant for hairstreak butterfly	sold out
amorpha canescens	leadplant	Gal	blue/purple flowers w/ orange anthers, Jun-July, 2'-3', sun, dry to medium soil, substitute for butterfly bush	few left
amsonia	blue star 'blue ice'	2 Qt	blue blooms, late spring, 1'-1.5', full sun to part shade, med soil	sold out
amsonia ciliata	amsonia ciliata 'Georgie Pancake'	2 Qt	blue blooms, late spring, 3-6", sun to part shade, med soil, groundcover form of amsonia – unusual!	sold out
amsonia hubrichtii	threadleaf bluestar	Qt	blue blooms, late spring, 3', full to part sun, dry to moist soil, drought tolerant, bright gold to orange foliage in fall	one left
amsonia illustris	Shining bluestar	2 Qt	blue blooms, late spring, 3', sun to part shade, deer/rabbit resistant, nice fall color	ready
amsonia 'Butterscotch'	Butterscotch' bluestar	Qt	blue blooms, late spring, 2-3', sun to part shade, dry to moist soil, colorful fall foliage	ready
amsonia 'Starstruck'	Starstruck' bluestar	Gal	blue blooms, late spring/early summer, 20", sun to part shade, dry to moist, colorful fall foliage, darker stem than most amsonias	ready
amsonia tabernaemontana	bluestar	Qt	blue blooms, May, 2'-3', sun to part shade, avg soil, drought tolerant, willowy foliage turns yellow in fall, attracts butterflies	sold out

Sheet1

anemone virginiana	Tall thimbleweed	Qt	white/green flowers then prominent seed heads, mid-late spring, 1'-2', sun to part shade, dry to medium soil	a few ready
Antennaria plantaginifolia	pussytoes	Qt	fuzzy white clusters of blooms, Apr-Jun, 6"-12", dry to med soil, full sun best, soft gray foliage spreads to form a nice ground cover	plugs ready
aquilegia canadensis	wild columbine	Qt	red blooms with yellow centers, spring, 1'-3', partial shade best, moist soil – attract hummingbirds	plugs ready
aquilegia canadensis	wild columbine 'Corbett'	Qt	butter yellow flowers Apr-May, 12"-18", sun to part shade, avg/moist soil, attracts hummingbirds	sold out
aquilegia canadensis	wild columbine 'pink lantern'	Qt	pink and yellow, 10"-12", sun to part shade, avg/moist soil, attracts hummingbirds	sold out
arisaema triphylum	Jack-in-the-pulpit	Qt	green/purple 'bloom', Apr-May, 1-2', med to moist soil, part to full shade	foliage fading
aruncus dioicus	goat's beard	Gal	white/cream flowers, Jun-July, 4'-5', shade/part shade, moist but well-drained soil, Attracts butterflies, larval host to Dusky Azure butterfly	sold out
asarum canadense	wild ginger	Qt	purple-brown blooms, mid spring, groundcover, part to full shade, med to wet soil	sold out
asclepias exaltata	poke milkweed	Qt	white blooms, summer, 3-5', shade/part shade, med soil, host plant for monarch butterfly, a milkweed for shade!	sold out
asclepias incarnata	swamp/red milkweed	Qt	pink blooms, June/July, 3'-5', full/part sun, average to moist soil, attracts numerous pollinators, host plant for monarchs	plugs
asclepias incarnata	swamp milkweed 'ice ballet'	Qt	white flowers June/July, moist soil, tolerates clay, attracts pollinators/monarchs	sold out
asclepias speciosa	showy milkweed	Qt	pink/purple flowers, May-Sept, 2-4', full sun, monarch host plant	sold out
asclepias syriaca	common milkweed	Qt	pink clusters of fragrant flowers, June-July, 2'-4', full sun, avg to dry soils, host plant for monarch	plugs
asclepias tuberosa	butterfly milkweed	Qt,Gal	Orange blooms June-July, full sun, average to dry soils, drought tolerant, attracts many butterflies/pollinators, host plant for monarchs	ready, blooming
asclepias tuberosa	butterfly milkweed 'gay butterflies'	Qt	orange/red/yellow blooms June-July, full sun, average to dry soils, drought tolerant, attracts many butterflies/pollinators, host plant for monarchs	sold out
asclepias tuberosa	butterfly milkweed 'hello yellow'	Qt	yellow blooms June-July, full sun, average to dry soils, drought tolerant, attracts many butterflies/pollinators, host plant for monarchs	new crop, small
asclepias verticillata	whorled milkweed	Qt	white or greenish-white blooms, Jul-Sept, 2', full sun to part shade, avg to dry soils, attracts numerous pollinators, host plant for monarch	sold out

asclepias viridis	Spider Milkweed	Qt	Green blooms, May-June, 12", full sun to part shade, med to dry soil, host plant for monarch	<b>sold out</b>
aster 'Bridal Veil'	Bridal veil aster	Qt	Numerous while blooms on arching/spreading stems, fall, up to 2', sun to part sun, tolerant of dry slopes, salt tolerant, nice for cascading over walls/down a bank	ready
aster cordifolius	blue wood aster	Gal	clouds of blue-violet blooms, early fall, 2'-3', full shade to part sun, avg soil, attracts butterflies	<b>a few avail</b>
aster cordifolius 'Avondale'	Avondale' blue wood aster	Gal	light blue blooms, early fall, 2'-3', full to part shade, avg soil, attracts butterflies	<b>ready</b>
aster divaricatus	white wood aster	Qt	white blooms, Aug-Sept, 1-2.5', part to full shade, med to dry soil, attracts butterfly	plugs
aster divaricatus	white wood aster 'Eastern Star'	Qt	white blooms on mahogany stems, fall, 18"-24", shade/part shade, moist to dry soils, attracts butterflies	<b>sold out</b>
aster ericoides	Heath aster 'Snow Flurry'	Gal	white blooms, Sept-Oct, 6"-8", mat-forming groundcover, full sun, drought tolerant	<b>sold out</b>
aster laevis	Bluebird' smooth aster	Qt	violet blooms, late summer/fall, 3-4', avg/dry soil, attractive to butterflies/pollinators, deer resistant, generally pest-free foliage, earned #1 ranking in Mt Cuba Center aster trial	nice foliage
aster lateriflorus	Lady in Black' calico aster	QT	pale pink to white daisy-like blooms, dark stems and tint of purple to foliage, late summer-fall, 3-4', sun to part shade, dry to moist soil, attractive to pollinators/butterflies, deer resistant	<b>nice foliage</b>
aster macrophylla 'Twilight'	Twilight' big leaf aster	Gal	lavender-blue blooms, late summer to fall, 2-3', sun to part shade, med to dry soils, attractive to pollinators	<b>sold out</b>
aster novae-angliae	New England aster	Qt	Pink-purple blooms, fall, 3-6', full sun, med soils	plugs
aster novae-angliae	Aster 'Purple Dome'	Qt	dark purple blooms, fall, 1.5-2', full sun, med soil	ready
aster novae-angliae	Aster 'Harrington's Pink'	Gal	pink blooms, fall, 3-6', full sun, avg soil, drought tolerant, deer resistant, attracts butterflies	<b>few left</b>
aster novae-angliae	Aster 'Violetta'	Gal	deep violet-purple blooms, fall, 4-5', full sun, avg soil, deer/rabbit resistant, attracts butterflies	cut back
aster novi-belgii	New york aster	Qt	pink/purple/white blooms, Aug-Sept, 3'-5', full sun, avg to moist soil, attracts butterflies/pollinators, nice with fall mums	<b>ready</b>
aster oblongifolius	Aromatic aster 'Raydon's favorite'	Qt, Gal	Blue-purple blooms, Sept-Oct, 2'-3', sun to part shade, tolerant of dry/poor soils	plugs
aster oblongifolius	Aromatic aster 'October Skies'	Gal	light blue flowers, fall, 1.5-2', sun to part shade, tolerant of dry/poor soils	<b>sold out</b>
aster puniceus	Purple-stemmed/swamp aster	2 Qt	purple daisy-like blooms on reddish-purple stems, late Aug – Oct, 3'-6', moist soil, full sun	cut back
aster umbellatus	Flat-topped white aster	Qt	clusters of white, daisy-like blooms, late Aug – Sept, 2'-5', moist soil, full sun to part shade, attractive to bees/butterflies	ready

aster 'Little Carlow'	Little Carlow blue wood aster	Qt	blue/purple blooms with yellow centers, Sept-Oct, 1.5-2', full sun, medium soil, a cross of a. cordifolius and a. novi-belgii	ready
astilbe biternata	Appalachian false goat's beard	2 Qt	creamy white flowers, late spring/early summer, 4-6', full to part shade, avg to moist soil	ready
baptisia australis	Blue false indigo	Gal	blue blooms, late spring/early summer followed by interesting seed pods, 3-4', sun to part shade, med to dry soil, attractive to butterflies, drought tolerant, rabbit resistant	one left
baptisia lactea	white false indigo	2 Qt	white blooms, bluish stems, Jun-July, 3'-5', med to moist soil, full sun	sold out
baptisia tinctoria	yellow wild indigo	Gal	yellow blooms, blue-green foliage, summer, sun/light shade, 3', deer resistant, drought tolerant	sold out
blephilia ciliata	downy wood mint/horsemint	qt	tiered clusters of lavender/pink blooms, June-Aug, 1-2', sun to part shade, med to dry soils, very attractive to a wide variety of pollinators (listed in '100 Plants to Feed the Bees' from the Xerces Society), drought tolerant	sold out
cacalia atriplicifolia	Pale Indian plantain	2 qt	White blooms, late summer/fall, 3 - 7', full to part sun, med to dry soils, purplish stems, bottom of leaves silvery	ready, buds
callirhoe involucrata	wine cups/poppy mallow	qt	magenta flowers, summer, 6-8", full sun to part shade, dry to med soils, tolerant of poor/rocky soils and drought, makes a trailing groundcover, host plant for gray hairstreak butterfly and checkered skipper	ready soon
campanula rotundifolia	harebell	Gal, Qt	blue blooms, June-Sept, 12"-15", sun to part shade, avg to moist soil, tolerates clay	sold out
cassia (senna) hebecarpa	wild senna	Qt	yellow blooms, July-Aug, 4'-6', full sun, med to moist soil, tolerates clay soil, seed pods attract upland game birds (such as turkey)	sold out
caulophyllum thalictroides	blue cohosh	2 Qt	green/yellow blooms in spring turning to blue berries, blue/green foliage, 1'-2', part to full shade, medium soil	sold out
centaurea americana	American basketflower	4 in	purple flowers, summer, 3-4', sun, med well drained soils, white variety also available, <b>reseeding annual</b>	ready
Chamaecrista fasciculata	partridge pea	4 in	yellow flowers, late summer/early fall, 2', sun to part shade, med to dry soils, good pollinator/larval host plant, <b>reseeding annual</b>	ready
chelone glabra	white turtlehead	Qt	white blooms, late summer/fall, 2'-4', full to part sun, prefers moist soil, good for rain gardens, host plant for Baltimore checkerspot butterfly	quarts and plugs
chelone lyonii	pink turtlehead	Qt	pink blooms, mid-late summer, 2'-4', sun to part shade, med to moist soil	sold out
chelone lyonii 'Tiny Tortuga'	pink turtlehead 'Tiny Tortuga'	Qt	pink blooms, late summer, 12-15", sun to part shade, moist soil	a few avail

chrysogonum virginianum	green and gold	Qt	yellow blooms on dark green foliage, spring, 6" (ground cover), shade/part shade, moist/average soil	<b>sold out</b>
chrysogonum virginianum	Pierre' green and gold	Qt	yellow blooms, spring, 6-8" (ground cover), shade/part shade, moist/avg soil	a few blooms
coreopsis 'Gilded Lace'	Gilded Lace' tickseed	Qt	golden-yellow blooms for several weeks, summer – fall, fine textured foliage, 4-5', sun, dry to moist, attractive to pollinators, good resistance to disease, performed well in Mt Cuba plant trials	<b>blooming</b>
coreopsis rosea	tickseed 'American dream	Qt	medium pink flowers June-Aug, moist but well-drained soil, attracts butterflies	<b>sold out</b>
coreopsis 'Mercury Rising'	Mercury Rising' tickseed	Qt	velvety dark red flowers later developing white streaks, mid-summer to fall, 12-18", sun	<b>sold out</b>
coreopsis 'Moonbeam'	Moonbeam' tickseed	Gal	pale yellow flowers and fine green foliage, summer, 15", sun, med soil	blooming
coreopsis tinctoria	Plains coreopsis/tickseed	Qt	Yellow blooms with red centers, summer to fall, 2-4', sun, dry to med soil, tolerant of poor soils, self seeds	<b>sold out</b>
coreopsis 'Uptick cream and red'	Uptick cream and red' tickseed	Qt	Large creamy-white to pale yellow blooms with a dark purple/red eye, summer to early fall, 12-14", drought tolerant	<b>sold out</b>
cornus canadensis	bunchberry	Plug/ Qt	white blooms in spring, red berries late summer/fall, spreads to form groundcover, part to full shade, acidic soil	<b>sold out</b>
delphinium exaltatum	tall larkspur	Qt	Violet blue blooms, Jun-Sept, 3'-6', sun to part shade, average to moist soil, attracts butterflies, cut flower	<b>sold out</b>
desmodium canadense	showy tick trefoil	2 Qt	Pink blooms, July/Aug, 3-5', sun to part shade, moist to dry soils, fixes soil nitrogen, attractive to pollinators/butterflies/hummingbirds	buds and blooms
dicentra cucullaria	Dutchman's breeches	Qt	white-pink flowers, spring, 6-12", part to full shade, med soil	<b>sold out</b>
dicentra eximia	wild bleeding heart	various	pale pink heart-shaped blooms on lacy blue/green foliage, spring-summer, 1'-2', part sun to shade, med to moist soil, morning sun/afternoon shade best	more ready a few weeks
dodecatheon meadia	Shooting star	4"/Qt	white/pink/lavender blooms, spring, 1', part to full shade, med soil	<b>going dormant</b>
echinacea pallida	Upright prairie/pale purple coneflower	Gal	pale pink blooms appear drooping, June-July, 2'-3', full sun, drought tolerant, attracts pollinators/butterflies	<b>sold out</b>
echinacea paradoxa	Yellow coneflower	Qt	bright pure yellow blooms with petals drooping from brown cone, early summer, 2'-3', full to part sun, average to dry soils, finches love the seed heads	<b>few left</b>
echinacea purpurea	purple coneflower	Qt	purple to rose pink blooms with orange cone center, July-Aug, 2'-3', full to part sun, average to dry soils, attracts pollinators, birds, butterflies	buds and blooms

echinacea 'Baja Burgundy'	Baja Burgundy' coneflower	Gal	burgundy-red blooms, summer, 18-24", sun, avg to dry soils, attractive to pollinators/butterflies/birds	<b>sold out</b>
echinacea 'Cheyenne Spirit'	Cheyenne Spirit' coneflower	Qt	mix of colors (orange/pink/purple/white/yellow), summer, 18-24", sun, avg to dry soils, attractive to butterflies/pollinators, nice cut flower	<b>sold out</b>
echinacea 'Fiery Meadow Mama'	Fiery Meadow Mama' coneflower	2 Qt	yellow blooms with reddish centers, summer, 2', full to part sun, avg to dry soils	<b>sold out</b>
echinacea 'Blushing Meadow Mama'	Blushing Meadow Mama' coneflower	2 Qt	white blooms with a hint of blush pink, summer, 2', full to part sun, avg to dry soil	<b>sold out</b>
echinacea 'Playful meadow mama'	Playful meadow mama' coneflower	2 Qt	dark pink petals with lighter to white tips, red centers, summer, 1-2', sun, med well drained soil	<b>sold out</b>
echinacea 'Green Twister'	'Green Twister' coneflower	Qt	pink/purple/red blooms with lime green/yellow tips, mid-summer to fall, 2'-3', full to part sun, avg to dry soils, a selection of echinacea purp. 'magnus'	plugs
echinacea 'mellow yellows'	Mellow Yellows' coneflower	Qt	light yellow to golden blooms, mid-summer to fall, 2-3', full to part sun, avg to dry soils	<b>sold out</b>
echinacea 'milkshake'	Milkshake' coneflower	2 Qt	creamy white double/pompom blooms, July-Sept, 2-3', sun, med, well-drained soil	<b>sold out</b>
echinacea 'Orange Skipper'	'Orange Skipper' coneflower	Gal	orange blooms, summer-early fall, 16-18", full to part sun, avg soils, drought tolerant, this cultivar is attractive to bees/butterflies	more ready soon
echinacea 'Powwow White'	Powwow White' coneflower	Qt	white blooms, summer-early fall, 1.5-2', full to part sun, avg well drained soils	<b>blooming</b>
echinacea 'Powwow Wild Berry'	Powwow Wild Berry' coneflower	Qt	rose-purple blooms with purple stems, summer, 1-2', full to part sun, avg well drained soil	<b>sold out</b>
echinacea 'Hot Coral'	Hot Coral' coneflower	Gal	hot orange-red flowers, summer, 20-24", sun, avg well drained soils, attractive to butterflies	<b>sold out</b>
Echinacea 'Ruby Star'	Ruby Star' coneflower	Qt	pinkish-red blooms, summer, 2-3', sun, avg well drained soils, stems of this variety often darker than most	ready, buds
echinacea 'Salsa Red'	Salsa Red' coneflower	Gal	red flowers, summer, 1.5-2', sun, avg well drained soils	<b>sold out</b>
echinacea 'Sangrita'	Sangrita' coneflower	Gal	reddish-orange blooms, 18-20", sun, avg well drained soils	<b>blooming</b>
echinacea 'Tomato Soup'	Tomato Soup' coneflower	Gal	tomato-red flowers, July-Sept, 2-3', sun, avg well drained soils, attractive to butterflies	buds
echinacea 'White Swan'	White Swan' coneflower	Qt	white flowers, July-Sept, 2-3', avg well drained soils, sun	<b>blooming</b>
echinacea tennesseensis	Tennessee Coneflower 'Rocky Top	Qt	Pinkish-purple blooms, June-Sept, 2'-3', tolerant of very alkaline soils, full sun, well-drained soils, drought tolerant	<b>sold out</b>
epilobium angustifolium	fireweed	Qt	pink blooms Jul-Sep, 2'-6' tall, med/moist soil in full sun, attracts hummingbird, pollinators	<b>sold out</b>

Sheet1

erigeron pulchellus	Lynnhaven Carpet' robin's plantain	Gal	lavender-white fringed daisy-like flowers, gradually fading to white, spring, 12-15", part sun to shade, moist to dry soils, deer/drought tolerant, attracts pollinators/butterflies	ready
erigonum allenii 'Little Rascal'	Little Rascal' share barren buckwheat	Plug	clusters of yellow blooms, summer, 1.5-2', well-drained soils, drought tolerant, long blooming, attracts pollinators, good for rocky sites	plugs
eryngium yuccifolium	rattlesnake master	Gal	Bluish-silver blooms Jun-Sept, 4-5', prefers hot, dry sites	one left
Erythronium americanum	trout lily	Qt	yellow blooms, Apr-may, 6", med/moist soil, shade/part shade	dormant
eupatorium 'Bartered Bride'	Bartered Bride' joe pye weed	Gal	white blooms, late summer/fall, 6-8', sun to part shade, med to moist soil, attractive to pollinators, highly rated in plant/pollinator trials	buds
eupatorium coelestinum	mist flower/hardy ageratum	Qt	blue/lavendar blooms, Sept-Oct, 2'-3', sun-shade, avg to moist soil, late season pollinator attractor, in moist soil can spread to form groundcover	few left
eupatorium dubium	'Little Joe' joe pye weed	Gal	Mauve-pink flowers, late summer/fall, 3-4', sun to part shade, med to moist soils	sold out
eupatorium dubium	coastal joe pye weed	Qt	2-5' tall, 2' wide, mauve-pink blooms, mid to late summer, moist to wet soil, sun to part shade	a few ready
eupatorium hyssopifolium	Hyssop leaf thoroughwort	Qt	clusters of white flowers, Aug-Sept, 2'-4', full to part sun, med to dry soils, tolerates drought, attractive to pollinators, deer resistant	sold out
eupatorium perfoliatum	Boneset	2 Qt	flat clusters of white blooms, July-Sept, 3-4', attracts butterflies, tolerant of wet and clay soils	buds and blooms
eupatorium 'Phantom'	Phantom' Joe Pye weed	Qt	rose-purple blooms, summer, up to 4', sun to part sun, moist to avg soil, butterfly nectar plant	ready
eupatorium purpureum	sweet joe pye weed	Qt	rose-pink blooms, late summer, 4-7', sun to part shade, dry to moist soils, more tolerant of dry soils and shade than most Joe Pye weed, butterfly nectar plant	ready
eupatorium 'Euphoria Ruby'	Euphoria Ruby' joe pye weed	Qt	mauve/pink flowers, mid-summer – fall, 2'-3', avg soil, full sun, attracts butterflies, earlier bloom, more compact and more drought tolerant than the straight species, high rating (4.5 out of 5, list of 'best of the best') in 2019 UGA garden trials	ready soon
eupatorium purpurea mac.	Joe pye weed 'Gateway'	2 Qt	Mauve-pink flowers, July-Sept, 5'-6', full to part sun, avg to moist soil, butterfly magnet!	one left
eupatorium rugosum	chocolate joe pye/snakeroot	Qt	white blooms on bronze foliage, summer, 3'-4', sun to shade, moist to dry, plant toxic to animals/humans if ingested	sold out
euphorbia corollata	Flowering spurge aka wild baby's breath	Qt	white flowers resembling baby's breath, late June – Sept, 18" tall, full sun is best, med to dry soil, deer resistant	buds/blooms
filipendula rubra	queen of the prairie	gal/qt	pink blooms, 6'-8', sun, prefers moist but well drained soil	sold out

filipendula rubra	'Venusta magnifia' queen of pr.	gal	pink blooms, 4'-5', sun, prefers moist but well drained soil	<b>sold out</b>
fragaria virginiana	wild strawberry	Qt	white blooms, spring, followed by small edible red berries (a parent plant of the modern strawberry), sun to part shade, med soil, spreading groundcover	ready
gaillardia	Arizona Apricot' blanketflower	Qt	pale yellow edges with apricot centers, late spring to fall, 12", full sun, tolerant of dry and poor soils	<b>sold out</b>
gaillardia	Arizona Sun' blanketflower	Qt	red blooms with yellow tips, late spring to fall, 12-18", full sun, tolerant of dry/poor soils	<b>sold out</b>
gaultheria procumbens	Wintergreen/teaberry	Qt	white bell-shaped blooms, 3"-6", part to full shade, medium acidic soils, evergreen groundcover	<b>sold out</b>
gaultheria procumbens 'PP'	Peppermint Pearl' wintergreen	Qt	same as above, but with white berries	<b>sold out</b>
gentiana andrewsii	Closed bottle gentian	Qt	blue blooms, late summer/fall, 1-2', med to moist soil, part shade	one left
geranium maculatum	Wild geranium	Qt	pink/lavender flowers, 12-18", sun to part shade, med to moist soil, attractive to pollinators	<b>sold out</b>
geum triflorum	Prairie smoke	Qt	feathery pink blooms, late spring, 3-6", full sun, dry to med soil, nice choice for rock garden	<b>sold out</b>
helenium autumnale 'Helena Red Shades'	Helena Red Shades' sneezeweed	2 Qt	russet red to red with yellow blooms, mid-summer to fall, 4', sun to part shade, wet to avg soils, attractive to native pollinators and butterflies, unpalatable to mammals	one left
helenium 'Salsa'	Salsa' sneezeweed	Gal	tomato-red flowers, late summer, 18-20", wet to avg soils	ready
helenium	sneezeweed 'Mardi Gras'	Qt	red/yellow/orange blooms, June-Aug, 2'-3', full sun, moist but well drained soil, adapts to avg garden soil well	<b>sold out</b>
helianthus decapetalus	Ten-petaled Sunflower	Gal	yellow daisy-like flowers, summer, 5', full sun to part shade, best in moist sites, adaptable, attractives to pollinators/butterflies	ready
helianthus multiflorus	perennial sunflower 'flore pleno'	Qt	yellow blooms, summer/fall, 4'-6', full sun, average soil	special order only
helianthus salic. 'First Light'	'First Light' willowleaf sunflower	Gal	yellow blooms, Sept-Oct, 3-4', full sun, med soil	<b>sold out</b>
helianthus salic. 'Low Down'	'Low Down' willowleaf sunflower	Gal	yellow blooms, late summer/fall, 12", full sun, med soil	<b>sold out</b>
helianthus strumosus	woodland/paleleaf sunflower	2 Qt	yellow blooms, Aug—Oct, 3'-5', sun to part shade (often grows along woodland edge/dappled shade), dry to medium soil, attracts pollinators/butterflies, deer resistant, birds love the seeds	<b>sold out</b>
heliopsis helianthoides	Smooth oxeye/false sunflower	Qt	yellow blooms, June-Aug, 4-5', sun to part shade, med to moist soils, attracts butterflies, birds eat seeds in fall	buds
heliopsis hel.	Smooth oxeye 'Summer Sun'	2 Qt	yellow semi-double blooms, July-Sept, 3'-4', full sun, moist well drained soil, but drought tolerant when established	<b>sold out</b>
heliopsis hel.	Smooth oxeye 'Summer Nights'	Gal	yellow blooms with reddish centers and red stems, late summer, 3-4', full sun, med to moist soils	<b>sold out</b>

heliopsis hel.	Smooth oxeye 'Burning Hearts'	Qt	yellow flowers with orange centers and dark purple foliage, summer, 3-4', sun to part shade, moist to avg soil, drought tolerant once established, attractive to butterflies and bees	red out
heuchera americana	Coral bell	Qt	pinkish-green flowers, late spring, 12", part to full shade, well-drained soils, foliage slightly ruffled and veined, turning red in fall, hummingbirds	ready

lobelia siphilitica	Great Blue Lobelia	Qt	blue-violet blues, July-Sept, 2'-3', sun to part shade, prefers moist soil – attracts butterflies and hummingbirds	plugs
lysimachia ciliata	Fringed loosestrife 'firecracker'	Qt	yellow blooms, summer, 2'-3', sun, new foliage maroon turning greener later in summer	few left
lysimachia lanceolata purp	Lanceleaf loosestrife	Gal	yellow blooms, 1-2', sun to part shade, med to moist soils, foliage has hints of burgundy	red out
meehania cordata	Meehan's mint	Qt	Blue-violet blooms, late spring, 6"-10", full shade to part sun, dry to moist soil, groundcover, good native substitute for ajuga	red out

mertensia virginiana	Virginia bluebells	Qt	pink buds forming blue flowers, early spring, 8"-2', part to full shade, moist soils, good early pollinator plant, foliage dies back in summer	red out
mitschella repens	Partridgeberry	4"	evergreen groundcover, small white flowers spring, red berries, 3", full to part shade, med soils	red out
monarda 'bee merry'	Bee Merry' beebalm	Gal	magenta blooms, summer, 12-15', good powdery mildew resistance	ready
monarda 'coral reef'	Coral reef' beebalm	Gal	coral pink flowers, summer, 3', med to moist soils	ready
monarda bradburiana	Bradbury's/Eastern bee balm	Qt	pale pink blooms speckled w/ purple, late spring, 1'-2', sun to part shade, dry to avg soil, attracts pollinators/hummingbirds	plugs
monarda didyma	bee balm	Qt	<b>the straight species</b> , red blooms summer, 2-4', sun to part shade, med to moist soils, attracts hummingbirds/pollinators, aromatic foliage, not browsed by mammals	few left
monarda didyma	Bee balm 'Marshall's delight'	Qt	Rose-pink flowers, summer, 3', sun to part shade, average to moist soils, attracts butterflies, pollinators, hummingbirds	red out
monarda didyma	Bee balm 'Blue Stocking'	Qt	Deep violet blooms, Jun-July, 2'-3', sun to part shade, avg to moist but well-drained soil, attracts butterflies/pollinators/hummingbirds	red out
monarda didyma	Bee balm 'Gardenview Scarlet'	Qt	Red blooms, mid to late summer, 2'-3', sun to part shade, avg to moist but well-drained soil, better resistance to mildew	red out
monarda 'Jacob Cline'	Bee balm 'Jacob Cline'	gal	red blooms, mid to late summer, 3-5', sun to part shade, avg to moist soils	red out
monarda raspberry wine	Raspberry Wine' beebalm	Qt	wine red flowers, 3-4', sun to part shade, avg to moist soils, good mildew resistance	ready
monarda didyma	Bee Balm 'Purple Rooster'	Qt	Purple blooms, June-July, 3-4', sun to part shade, moist to dry soils, attractive to wide variety of pollinators/butterflies, drought tolerant, 'Purple Rooster' reported as mildew free in Mt Cuba trials	red out
monarda didyma	Bee balm ' White'	Qt	White blooms, July, 2'-3', sun, avg to moist but well-drained soil, attracts butterflies/pollinators/hummingbirds	red out
monarda fistulosa	wild bergamot	Qt	Lavendar blooms, late summer, 2'-5', full to part sun, dry to moist soil, drought tolerant, aromatic foliage, attracts bees, butterflies, hummingbirds, more resistant to powdery mildew than most	Plugs
monarda media	Purple bergamot	Qt	Red/purple/pink blooms (varies), July, 2-3', avg to moist soil, sun to part shade, attracts butterflies/hummingbirds/pollinators	ready
monarda punctata	horsemint/spotted bee balm	Qt	purple spotted flowers atop stems with pink/lavender/cream bracts, 1-3', sun, moist to dry soils, attractive to pollinators/butterflies/hummingbirds, deer/rabbit resistant	red out

monarda spp.	pink and purple varieties	Qt	unknown varieties, a few red, some pink varieties	few left
oenothera fruticosa	narrowleaf evening primrose	Qt	red flower buds followed by bright yellow flowers, summer, 1-3', sun to part shade, dry to moist soil, attractive to pollinators and hummingbirds, songbirds eat seeds	sold out
pachysandra procumbens	Allegheny spurge	Qt	white bottlebrush flowers, early spring, 6-12", part to full shade, med soil, gradually spreads to form a groundcover, drought tolerant once established	sold out
packera obovata	roundleaf ragwort	Qt	yellow daisy-like blooms, Apr – June, 1'-2', sun to part shade, med to wet soils, foliage semi-evergreen, tinged with burgundy at time, good ground cover	ready, small
parthenium integrifolium	wild quinine	Qt	white flower clusters, 3'-5', summer-fall, full sun, dry to medium soils	buds and blooms
paxistima canbyi	Canby's mountain lover/cliffgreen	Qt	evergreen groundcover, small green flowers, May, 6-12", sun to part shade, good for rocky slopes	a few avail
pedicularis canadensis	Canadian wood betony	Qt	reddish/violet with yellow blooms, 12", Apr-May, full to part sun, med to dry soil, well drained best, attractive to bumblebees	sold out
penstemon calycosus	Calico penstemon	Qt	pale lavender to white tubular blooms, late spring/early summer, 2'-3', part shade, avg soil, attracts wide variety of pollinators/hummingbirds, tolerant of alkaline soils	sold out
penstemon digitalis	beardtongue	Qt	white to pink blooms, late spring/early summer, 3'-4', full sun to part sun, average to dry soil, drought tolerant, attracts bees/butterflies/hummingbirds	sold out
penstemon digitalis	beardtongue 'husker red'	Qt	pale pink/white blooms late spring/early summer, reddish-green foliage, 2-3', sun/part shade, average soil, attracts hummingbirds	ready
penstemon 'Dark Towers'	Dark Towers' beardtongue	Qt	pale pink/white blooms late spring/early summer, very dark maroon foliage, 2-3', sun/part shade, average soil, attracts hummingbirds	nice foliage
penstemon 'Onyx and Pearls'	Onyx and Pearls' beardtongue	Gal	pale lavender to white blooms, late spring/early summer, 3-4', sun/part shade, avg soil, dark foliage (near black when mature),	sold out
penstemon hirsutus	hairy beardtongue	Qt	pale purple flowers, May-June, 12-18", sun to shade, moist to dry soils, attractive to bumblebees, butterflies and hummingbirds	sold out
penstemon hir. 'Pygmaeus'	hairy beardtongue 'Pygmaeus'	Qt	pale pink/lavender/white blooms, late spring/early summer, 6", sun to part shade, med soil, good drainage, attracts hummingbirds/bumblebees, compact size for front of border	sold out
penstemon smallii	Small's penstemon	Qt	lavendar/pink blooms, summer, 1'-2', sun/part shade, average soil, attracts hummingbirds, bees, butterflies	one left

phacelia bipinnatifida	Purple or fernleaf phacelia	Qt	lavender flowers, spring, 12-15", part to full shade, med to moist soils, attracts native bees, deer resistant, a reseeding biennial, good filler plant for woodland gardens	Ready
phlox carolina	phlox 'Minnie Pearl'	Gal	white blooms, early summer, 1-2', sun to part sun, med soil, good resistance to powdery mildew	<b>sold out</b>
phlox carolina	thickleaf phlox 'Kim'	Qt	pinkish/purple blooms, summer, 1'-2', sun to part shade, avg to moist soil, good resistance to powdery mildew	<b>sold out</b>
phlox divaricata	wild blue phlox	Qt	pink/white/lavendar blooms Apr-May, 8"-12", part shade, moist soil, attracts butterflies, fragrant	ready
phlox divaricata	woodland phlox 'blue moon'	Qt	violet blue blooms Apr-May, 12"-18", part shade, moist soil, attracts hummingbirds, pollinators	<b>sold out</b>
phlox divaricata	woodland phlox 'may breeze'	Qt	light blue to white blooms Apr-May, 10"-12", part shade, moist soil, attracts hummingbirds, pollinators	<b>few left</b>
phlox glaberrima	Morris Berd' smooth phlox	Gal	bright pink flowers, late spring/early summer, 2-3', sun to part shade, moist to dry soil, excellent disease resistance, nice maroon foliage in fall, good rating in Mt Cuba and Chicago Botanic Garden Trials, similar to phlox paniculata but more compact, narrower foliage	<b>few left</b>
phlox paniculata	garden phlox, variety	Qt	'Peacock White', mix of other unknown varieties (pink/purple)	ready
phlox paniculata	garden phlox 'Jeana'	Qt	lavendar/pink fragrant blooms, June to late summer, 3'-5', avg to moist soil, good resistance to powdery mildew, butterfly magnet	plugs
phlox stolonifera	Creep. Phlox 'Blue Ridge'	Qt	lavender-blue blooms, late-spring to early summer, 6-8", med to moist (but well-drained) soil, part to full shade, attractive to butterflies/hummingbirds, drought tolerant once established, can gradually spread to form groundcover	<b>few left</b>
phlox stolonifera	Creep. Phlox 'Home Fires'	Qt	Deep pink flowers starting in Apr, 6-10", shade to part shade, moist well-drained soil, attracts butterflies/pollinators	<b>sold out</b>
phlox stolonifera	Creep. Phlox 'Sherwood Purple'	Qt	Purplish-blue flowers starting in Apr, 6-10", shade to part shade, moist well-drained soil, attracts butterflies/pollinators	<b>few left</b>
phlox subulata	Moss phlox	Qt	groundcover phlox with semi-evergreen foliage, spring, sun to part shade, well-drained soil, tolerates poor soils, varieties available include purple beauty, emerald blue (more avail by special order)	<b>sold out</b>
physostegia virginiana	obedient plant	Qt	pink flowers spikes bloom late summer/fall, 3'-4', full sun, tolerates wet clay soil, but fine in average soil, can spread if happy	ready, also bareroot clumps
physostegia virginiana	obedient plant 'miss manners'	Qt	white flower spikes bloom late summer/fall, 2'-2.5', full sun, medium soil, tolerates moist, less aggressive	<b>sold out</b>

podophyllum peltatum	Mayapple	Qt	white blooms, Apr-May, 1-1.5', part to full shade, med soil, edible fruit after flowering	fading
polemonium reptans	Jacob's ladder	Gal	light blue flowers, late spring, 12"-18", shade/part sun, average to moist soil, forms groundcover	ready
polemonium 'Blue Pearl'	Jacob's ladder	Qt	light blue flowers, late spring, 10-12", shade/part sun, avg to moist soils, forms groundcover	<b>sold out</b>
porteranthus trifolius	Bowman's root/Indian physic	Qt	White-pink blooms on red stems, late spring/early summer, 2'-3', shade to part sun, bronze-red fall foliage	ready
pycnanthemum flexuosum	Appalachian mountain mint	Qt	Silver-white blooms, late summer/fall, 2'-3', full to part sun, moist to dry soil, more clump forming than most mountain mints, nice fall foliage color, host plant for gray hairstreak, attracts pollinators	<b>sold out</b>
pycnanthemum incanum	Hoary mountain mint	Qt	clusters of lavender to white flowers, late summer, 3'-4', sun to part shade, average well-drained soil, aromatic foliage with silver tinge, very attractive to wide variety of pollinators	ready
pycnanthemum muticum	Short toothed/clustered mountain mint	Qt	silver bracts with light pink blooms, late summer, 2'-3', full sun to full shade, moist to dry soil, aromatic foliage, nice in arrangements – attracts bees and butterflies	ready
pycnanthemum pilosum	Hairy mountain mint	Qt	fuzzy white blooms, late summer/fall, 1-3', sun to part shade, dry to medium soil, silvery-green foliage, attractive to numerous pollinators, deer/rabbit resistant	ready
pycnanthemum tenuifolium	narrowleaf mountain mint	Qt	white blooms, mid-late summer, 2'-3', sun to part shade, dry to medium soil, fragrant, attracts pollinators	ready
pycnanthemum virginianum	American mountain mint	Qt	white blooms, July-Sept, 2-3', full sun, wet to dry soil, aromatic foliage, attracts numerous pollinators	ready
rudbeckia fulgida v. deamii	Deam's coneflower	Qt	yellow blooms, 3', summer, full sun, average soil, attractive to pollinators, seed heads attractive to birds	ready
rudbeckia hirta	black eyed susan	Qt, 2 Qt	yellow blooms, summer, 2'-3', sun to part shade, average soil, can be short-lived/biennial, but reseeds	<b>sold out</b>
rudbeckia hirta	Autumn Colors' black eyed susan	Qt	deep red, orange, bronze and yellow blooms, 2-3', fun, avg soil	<b>blooming</b>
rudbeckia hirta	Prairie Sun' black eyed susan	Qt	green centers with darker petal color in the center, fading to yellow, 2-3', sun, avg soil	<b>blooming</b>
rudbeckia laciniata	cutleaf coneflower	Qt, Gal	yellow blooms, Aug-Sept, 5'-8', full to part sun, average to moist soil, attracts butterflies and birds, nice cut flower, pretty with ironweeds	ready
rudbeckia maxima	great coneflower	Qt	yellow flowers with dark cones July-Sept, blue/green foliage, 6'-8', full sun, dry to medium soil	<b>sold out</b>
rudbeckia subtomentosa	sweet coneflower 'Henry Eilers'	Gal	yellow quilled flowers, Aug-Sept, 4-5', moist-average soil, drought tolerant when established	<b>sold out</b>

rudbeckia subtomentosa	sweet coneflower 'little Henry'	2 Qt	yellow quilled flowers, Jul-Sept, 3', moist-average soil, drought tolerant when established	ready
rudbeckia triloba	Three lobed coneflower	Qt	yellow blooms, July-Sept, 3', sun, good for moist areas but tolerant of dry sites as well	ready
rudbeckia triloba 'Blackjack Gold'	Three lobed coneflower 'Blackjack Gold'	Gal	yellow blooms with dark centers/stems, 3', sun, longer lived than the species, longer bloom time	<b>sold out</b>
rudbeckia tri. 'Little Charm'	Little Charm' three lobed coneflower	Gal	yellow blooms, 3', sun, long blooming variety	ready
salvia azurea	Blue sage	Qt	sky blue blooms, late summer, 5', sun, med to dry soil, aromatic foliage, attractive to pollinators/butterflies, good native substitute for Russian sage	ready
salvia lyrata	Purple knockout' Lyre-leaf sage	4"	maroon foliage, white/lavendar blooms, 1', sun to part shade, moist to dry	ready
sanguisorba officinalis	greater burnet	Gal	dark red to maroon-purple blooms, summer, 2-3', sun, med soil, deer resistant, unusual foliage, attracts songbirds/pollinators/butterflies, nice addition to cut arrangements	ready
sarracenia	pitcher plant		red/green "hooded pitchers", can reach 16" tall, bog plant	ready soon
scrophularia marilandica	late figwort	Qt	small reddish-green blooms, late summer/fall, 6', sun to part sun, med to dry, attractive to hummingbirds/pollinators	ready
scutellaria incana	hoary skullcap	2 Qt	Voilet-blue blooms, summer, 2'-4', full to part sun, avg to dry soil, tolerates clay soil, attracts butterflies	ready
sedum ternatum	woodland stonecrop	Qt	Larinem Park', white blooms late spring/summer, 2"-6", full to part shade, moist/average soil, good groundcover for shade	past bloom
senecio aureus	packera aurea	Qt	yellow blooms Mar-May, 12"-15" tall, full sun to shade, dry to moist, early pollinator plant	<b>sold out</b>
silene caroliniana	wild pink 'short and sweet'	Qt	pink blooms May-Jun, 6"-8", sun to part shade, med to dry soil, attracts hummingbirds/butterflies, native subst for dianthus	ready
silene virginica	fire pink	Qt	scarlet red blooms spring, 12"-20", part shade, moist good drainage, found on rocky wooded slopes in open woods	<b>sold out</b>
silphium mohrii	Mohr's rosinweed	Gal	pale yellow blooms, mid sum - fall, 2-5', sun to part shade, med to dry soil, does well in rocky sites, a slightly more compact and drought tolerant silphium	one avail
silphium perfoliatum	Cup plant	Gal	Yellow daisy-like blooms, July-Oct, 6-8', sun, med to wet soils, large leaves form 'cups' that collect water for birds, frogs and other wildlife	a few avail
Sisyrinchium ang. 'Suwannee'	Suwannee' Blue Eyed Grass	Qt	sky blooms blooms, spring into summer, 8-10", moist to dry soils, sun to part shade, grass-like foliage, groundcover	<b>sold out</b>

Sisyrinchium ang. 'Lucerne'	Lucerne' blue eyed grass	Qt	violet-blue flowers, spring into summer, 8-10", moist to dry soils, sun to part shade, grass-like foliage	<b>sold out</b>
smilacina racemosa	False Solomon's seal	Qt	ivory flower plumes, late spring, followed by red berries, 1-3', part to full shade, med to moist soils	ready
solidago flexicaulis	Zigzag Broadleaf goldenrod	Qt	yellow blooms late summer/fall, 1-3', a woodland variety of goldenrod, best in dappled shade, attracts pollinators	few left
solidago graminifolia	grass-leaved goldenrod	Qt	flat-topped clusters of golden-yellow flowers, fine textured foliage, late summer/fall, 3-4', sun to part shade, med to moist soil, attractive to butterflies/pollinators, a variety of birds eat the seeds, nice cut flower	ready
solidago juncea	Early goldenrod	Qt	2-4' tall, 2-3' wide, yellow flower panicles on arching stems, blooms July-Aug, moist to dry soil, sun to part shade	ready, buds
solidago 'Little Lemon'	'Little Lemon' goldenrod	Qt	compact goldenrod, lemon-yellow blooms, 8"-14", good choice for fall containers	<b>sold out</b>
solidago odora	Sweet goldenrod	Qt	yellow blooms, late summer/fall, 2-4', sun to part shade, tolerant of dry soil, clump forming (not as aggressive as other goldenrods), also called anise-scented goldenrod	one left
solidago rigida	Stiff goldenrod	Qt	yellow blooms, gray/green foliage, late summer/fall, 2'-5', full sun, moist to dry	<b>sold out</b>
solidago rugosa	'Fireworks' goldenrod	2 Qt	yellow blooms, late summer/fall, 3'-4', full to part sun, avg soil, attracts late season pollinators, nice with asters	<b>sold out</b>
solidago shortii	'Solar Cascade' goldenrod	Qt	yellow blooms, late summer/fall, 2'-3', full to part sun, average soil, drought tolerant once established, late season pollinator plant, not as aggressive as many other goldenrods	ready
solidago speciosa	Showy goldenrod	2 Qt	2-3' tall and wide, pyramidal yellow/gold blooms, reddish stems, late summer to fall, moist to dry, sun to part shade	ready
solidago sph. 'Golden Fleece'	Golden Fleece' goldenrod	Gal	Yellow blooms, late summer-fall, 1-1.5', full sun, dry to med soil, more compact and mounding habit than most goldenrods	ready
spigelia marilandica	Indian pink	Gal	red w/ yellow blooms, 12"-18", summer, part sun/shade, moist soil	ready, small
spiranthes cernua odora	Ladies tresses	Gal	fragrant white flowers late summer-frost, 8"- 2', part shade, medium to wet soil, prefers acidic, a native woodland orchid	<b>sold out</b>
stokesia laevis	Stokes' aster	Gal	lilac-blue flowers, summer, 18", sun, med to moist but well-drained soils	blooming
stokesia laevis 'Divinity'	Divinity' Stokes' aster	Gal	white blooms with pale yellow centers, 1-1.5', sun, med to moist but well-drained soil, avoid wet winter sites	few left
stylophorum diphyllum	wood/celandine poppy	Qt	golden yellow blooms Apr – Jun, 12"-15", shade, moist soil, attracts butterflies/pollinators	ready
thalictrum dasycarpum	tall/purple meadow rue	2 Qt	cream blooms on purple stems, late spring, 6', full to part sun, med to wet soil,	past bloom
thermopsis caroliniana	Carolina lupine	Gal	yellow blooms, June, 3'-4', full sun, avg soil	<b>sold out</b>

tiarella cordifolia	foamflower	Qt	White/light pink blooms, 12"-18", full to part shade, moist to average soils, can spread to form groundcover in these conditions	ready
tiarella cordifolia	foamflower 'Appalachian Trail'	Qt	White/light pink blooms, leaves have dark burgundy centers, 12"-18", full to part shade, moist to average soils, can spread to form groundcover in these conditions	sold out
tradescantia 'Sweet Kate'	Sweet Kate' spiderwort	Gal	purple flowers, chartreuse foliage, late spring/summer, 18", best with afternoon shade to prevent scorching	nice
uvularia grandiflora	Bellwort	Qt	pale yellow blooms, mid spring, 1-2', part to full shade, med soil	one avail
verbena hastata	blue vervain	Qt	purple blooms, July/August, 4'-6', full sun, moist to wet soil, attracts butterflies	sold out
vernonia altissima	Tall ironweed	Qt	purple blooms, late summer, 5-8', sun to part sun, moist to wet soils, one of the tallest and showiest ironweeds	ready
vernonia glauca	Upland Ironweed	Qt	purple blooms, Aug-Sept, 3-5', sun to part shade, moist to dry soils, attractive to wide variety of pollinators/butterflies, drought tolerant	sold out
vernonia lettermannii	'Iron butterfly' ironweed	Qt	purple blooms, late summer-fall, 2-3', full sun, avg soil, fine-textured foliage, more tolerant of dry sites than most ironweed	nice foliage
vernonia noveboracensis	New York ironweed	Qt	purple blooms, late summer, 4'-7', full sun, moist to dry soil, but found naturally in moist soils – attracts butterflies, striking in mass mixed with yellow flowers (solidago, rudbeckia, etc)	sold out
vernonia 'Southern Cross'	Southern Cross' ironweed	Gal	purple blooms, late summer/fall, 2.5-3', sun, dry to med soil, attracts butterflies/pollinators, a drought tolerant ironweed	one left
veronicastrum virginicum	Culver's root	Gal, Qt	white flower spikes, Jun-Aug, 4'-6', prefers moist soils but tolerates drought once established	ready
viola pedata	Bird foot's violet	Qt	lilac-purple blooms, spring, 3-6", sun to part shade, tolerant of dry, rocky soils, butterfly host plant, avoid over crowding and wet sites, attracts pollinators/small butterflies, host plant for fritillary butterflies	ready
Waldsteinia fragarioides	barren strawberry	Qt, 2 Q	yellow blooms early to late spring, 3-6" high, spreading groundcover, full sun to part shade	sold out
xanthorhiza simplicissima	yellowroot	Qt	Star-shaped maroon blooms, spring, 2-3', considered woody perennial or sub-shrub, part to full shade, med to wet soil, spreads to form groundcover, attractive fall color, shades of yellow/red/purple	a few left
yucca filamentosa	Color Guard' yucca	Gal	creamy white flowers, summer, 3-6', sun, dry to med soils, gold foliage with green edges, has some pink coloration in fall	one left
zizia aurea	golden alexander	Qt/Gal	yellow blooms May-Jun, 2'-3', part shade, med to moist soil, attracts pollinators/butterflies, larval host to Black Swallowtail	ready
<b>Vines</b>				

Aristolochia durior	Dutchman's pipe/pipevine	Gal	Maroon-green pipe-shaped blooms, late spring, can reach 30', large heart-shaped leaves, good for shade on trellis, host plant for pipevine swallowtail	nice foliage
clematis virginiana	Virgin's bower	Gal	white blooms, late summer-fall, 9', sun to part shade, med to moist but well-drained soil	sold out
Decumaria barbara	climbing hydrangea/woodvamp	Gal	white blooms, summer to fall, dark foliage, climbs trees or brick, blooms attractive to butterflies/pollinators	blooming
Lonicera sempervirens	Trumpet honeysuckle vine	Gal	Scarlet/orange/red blooms, late spring, followed by red berries in fall, 10-20', full sun, med soil, attractive to hummingbirds/pollinators	sold out
Lonicera sempervirens	Trumpet honeysuckle vine 'Major Wheeler'	Gal	Red blooms, late spring, followed by red berries in fall, 3-8', full sun, med soil, attractive to hummingbirds/pollinators	sold out
Lonicera sempervirens	Trumpet honeysuckle vine 'John Clayton'	Gal	pale yellow blooms, late spring, profuse berry production, 6-12', full sun, med soil, attractive to pollinators	sold out
Matelea carolinensis	Caroline milkvine or climbing milkweed	2 Qt	Unusual maroon blooms in summer followed by seed pods, vines die back completely each winter and re-emerge late spring, blooms attractive to variety of butterflies, host plant for monarch	sold out
menispermum canadense	Common moonseed	Qt	greenish-white flowers, may-june, followed by fruit (not edible), part shade, medium soil, 8-20'	ready
Passiflora incarnata	Passion flower vine	Gal	Exotic-looking purple and white blooms following by small green 'fruit', summer-fall, up to 20', sun to part shade, attractive to pollinators	ready a few weeks
wisteria frutescens	american wisteria	Gal	Lilac-purple blooms, mid spring, 15-30', sun, med soil	ready
wisteria frutescens 'Nivea'	american wisteria 'Nivea'	Gal	<b>white</b> flowered form of the above	sold out
<b>Ferns</b>				
adiantum pedatum	Maidenhair fern	Qt	delicate foliage on dark stems, 12"-18", part to full shade, avg to moist soil	nice foliage
asplenium trichomanes	Maidenhair spleenwort	Qt	small evergreen fronds, dark stems, tolerant of dry, rocky sites in shade	few left
athyrium felix femina	lady fern	Qt	red/brown stems with green foliage, 2', prefers shade to part shade	few left
athyrium 'ghost'	ghost fern	Gal	silvery-green foliage with reddish stems, 2-3' tall/wide, part to full shade, med to moist soil	sold out
athyrium felix femina 'Lady in Red'	Lady in Red' lady fern	Qt	same as above, but stems have more red coloration	few left
athyrium felix femina 'minutissima'	dwarf lady fern	Qt	same as above, but more compact form (6-12")	sold out

athyrium felix femina 'Victoriae'	Victoriae' lady fern	Qt	unusual selection of lady fern with criss-crossed fronds with crested tips, 18-24" tall, part to full shade, med to moist soil, deer resistant	ready
dennstaedtia punctilobula	Hay-scented fern	Qt	green foliage, 1.5-2', part to full shade, med soil	<b>sold out</b>
dryopteris australis	Dixie wood fern	Gal	green foliage, 3-4' tall, full to part shade, med to moist soil	<b>a few left</b>
dryopteris cristata	Crested woodfern	Qt	green foliage, 1-2', part to full shade, moist to wet soil	<b>sold out</b>
dryopteris filix-mas	Parsley' male fern	Gal	crested or fringed fern, 18-24", part to full shade, moist to avg soil, deer resistant	<b>few left</b>
dryopteris goldiana	Goldie's wood fern	Qt	green foliage, 3', part shade/shade, moist soil	<b>sold out</b>
dryopteris intermedia	evergreen wood fern	Qt	lacy, evergreen fronds, 1-3', best in moist, shady sites	<b>small</b>
dryopteris marginalis	eastern/marginal wood fern	Qt	green foliage, 12"-18", prefers shade to part shade, tolerates dry soils when established	ready
matteuccia struthiopteris	ostrich fern	Qt, 2 Qt	large fern, 3-6', part to full shade, med to moist soils, deer/rabbit resistant, spreads to form colonies	<b>ready</b>
onoclea sensibilis	sensitive fern	Qt	green foliage, 12"-18", shade to part shade, moist soils, spreads to form groundcover	<b>sold out</b>
osmunda cinnamomea	cinnamon fern	2 Qt	green foliage, red/brown upright fronds emerge in summer, 2'-5', prefers shade/part shade, moist soil	<b>sold out</b>
osmunda claytonia	interrupted fern	Qt	vase-like shape, 3-4', fronds develop brown clumps of spores halfway up giving the "interrupted" appearance, best in moist shade, but tolerant of drier conditions once established, deer resistant	<b>few left</b>
polystichum acrostichoides	Christmas fern	Qt	evergreen foliage, 1-2', part to full shade, dry to medium soils, clump forming, grows well on rocky banks, good for erosion control	ready
thelypteris noveboracensis	New York fern	Qt	fine textured, green foliage, 1-2', part to full shade, moist to dry, spreads to form colonies	<b>sold out</b>
thelypteris palustris	marsh fern	Qt	Yellow-green fronds 18"-24", tolerates sun in moist/wet soils	<b>ready</b>
<b>Grasses</b>				
andropogon gerardii	big bluestem	Gal	green to blue-green foliage, purplish blooms resembling a turkey foot in fall, foliage has shades of red/bronze/purple in fall, 7'+, sun, dry to med soils	ready small
carex appalachica	Appalachian Sedge	Qt	fine green foliage, 6", shade to part shade, avg to dry soil, good groundcover for dry, shady sites or accent plant in container/stump/rock crevice	nice foliage
carex laxiculmis	bunny blue sedge	Qt	blue/green foliage, 8"-12", shade to part sun, evergreen (cut back late winter)	nice foliage

carex pennsylvanica	Pennsylvania sedge	Qt	green airy foliage, 6"-12", shade to part shade, average to dry soil, good groundcover for dry, deciduous shade sites	<b>sold out</b>
carex plantaginea	Seersucker sedge	Qt	wide dimpled leaves, purplish black flowers in spring, 8-12", part to full shade, dry to moist soils	nice foliage
carex platyphylla	Silver Sedge	Qt	clump-forming sedge, 8-12", with powdery blue-green textured leaves about an inch wide, dry to moist soils, part to full shade, good for dry, rocky banks to stabilize soil	<b>sold out</b>
Chasmanthium latifolium	northern sea oats	Qt	Flat, oat-like seed heads on bamboo-like foliage, sun to part shade, good for dry shady sites	ready
Elymus hystrix	Bottlebrush grass	Gal	seed heads resembling bottle brushes, 3-5', tolerant of part shade and dry soil	ready, blooms
Elymus virginicus	Virginia wild rye	Qt	wheat/rye-like spikes, 2-4', moist sites, sun to shade, reseeds, good choice for erosion control on slopes	ready
eragrostis spectabilis	Purple love grass	Qt	green foliage with reddish-purple seed heads in late summer, 1-2', sun, dry to med soil, tolerant of poor/dry soils	ready
hierochloe odorata	vanilla sweet grass	Qt	blue green grass, brownish blooms, 1'-2', sun to part shade, moist to wet soil best, spreads up to 2' year, best in winter-proof container, leaves have vanilla fragrance (dried, braided and then burned, once used by Native Americans in ceremonies)	Ready
