Scientific Name	Common Name	Size	Description	Now
<b>Perennials</b>				
achillea	yarrow - various	Qt	Oertel's rose', desert red and a few straight species, full sun, med to dry soils	ready
actaea pachypoda	doll's eyes	1 gal	white blooms in spring turning to white berries in summer, 2'-3', full to part shade, avg soil, berries poisonous if ingested	<b>sold out</b>
actaea racemosa	black cohosh/fairy candles	1, 2 Qt	white blooms on large spikes, Jun-Jul, 4'-6', part to full shade, med to moist soil	ready
Actinomeris (verbesina) alternifolia	wingstem	Qt	bright yellow, daisy-like blooms, Aug-Oct, 3-8', part-shade to shade, med to moist soil, high value to pollinators	<b>one avail</b>
agastache foeniculum	anise hyssop	Qt	purple blooms, late summer, 2'-4', full sun, avg to dry soil, attract pollinators/butterflies/hummingbirds	ready
agastache scrophulariaefolia	Purple giant hyssop	Qt	Very pale purple blooms, up to 6', full to part sun, dry to moist soil, attracts numerous pollinators/butterflies, birds feed on seeds	ready
allium cernuum	Nodding onion	Qt	soft pink/lilac blooms, late spring, 12-18", sun to part shade, med to dry soils, deer resistant, attracts pollinators, host plant for hairstreak butterfly	plugs
amorpha canescens	leadplant	Gal	blue/purple flowers w/ orange anthers, Jun-July, 2'-3', sun, dry to medium soil, substitute for butterfly bush	<b>few left</b>
amsonia	blue star 'blue ice'	2 Qt	blue blooms, late spring, 1'-1.5', full sun to part shade, med soil	<b>sold out</b>
amsonia ciliata	amsonia ciliata 'Georgie Pancake'	2 Qt	blue blooms, late spring, 3-6", sun to part shade, med soil, groundcover form of amsonia – unusual!	<b>sold out</b>
amsonia hubrichtii	threadleaf bluestar	Qt	blue blooms, late spring, 3', full to part sun, dry to moist soil, drought tolerant, bright gold to orange foliage in fall	ready
amsonia illustris	Shining bluestar	2 Qt	blue blooms, late spring, 3', sun to part shade, deer/rabbit resistant, nice fall color	<b>ready</b>
amsonia 'Butterscotch'	Butterscotch' bluestar	Qt	blue blooms, late spring, 2-3', sun to part shade, dry to moist soil, colorful fall foliage	<b>sold out</b>
amsonia 'Starstruck'	Starstruck' bluestar	Gal	blue blooms, late spring/early summer, 20", sun to part shade, dry to moist, colorful fall foliage, darker stem than most amsonias	<b>sold out</b>
amsonia 'Storm Cloud'	Storm Cloud' bluestar	Gal	blue blooms, late spring, 24-30", sun/part shade, med soil, shoots/stems in spring dark	<b>few left</b>

amsonia tabernaemontana	bluestar	Qt	blue blooms, May, 2'-3', sun to part shade, avg soil, drought tolerant, willowy foliage turns yellow in fall, attracts butterflies	<b>sold out</b>
anemone virginiana	Tall thimbleweed	Qt	white/green flowers then prominent seed heads, mid-late spring, 1'-2', sun to part shade, dry to medium soil	ready
anemonella thalictroides	Rue anemone	Qt	small white flowers, early spring, part shade	ready
Antennaria plantaginifolia	pussytoes	Qt	fuzzy white clusters of blooms, Apr-Jun, 6"-12", dry to med soil, full sun best, soft gray foliage spreads to form a nice ground cover	one left
aquilegia canadensis	wild columbine	Qt	red blooms with yellow centers, spring, 1'-3', partial shade best, moist soil – attract hummingbirds	plugs
aquilegia canadensis	wild columbine 'Corbett'	Qt	butter yellow flowers Apr-May, 12"-18", sun to part shade, avg/moist soil, attracts hummingbirds	ready blooming
aquilegia canadensis	wild columbine 'little lanterns'	Qt	red and yellow, 10"-12", sun to part shade, avg/moist soil, attracts hummingbirds, dwarf selection of wild	ready blooming
arisaema triphyllum	Jack-in-the-pulpit	Qt	green/purple 'bloom', Apr-May, 1-2', med to moist soil, part to full shade	few left
aruncus dioicus	goat's beard	Gal	white/cream flowers, Jun-July, 4'-5', shade/part shade, moist but well-drained soil, Attracts butterflies, larval host to Dusky Azure butterfly	ready
asaraum arifolium	little brown jug/evergreen ginger	Qt	small brown jug-shaped flowers, spring, evergreen foliage, moist soils	ready
asarum canadense	wild ginger	Qt	purple-brown blooms, mid spring, groundcover, part to full shade, med to wet soil	ready
asclepias exaltata	poke milkweed	Qt	white blooms, summer, 3-5', shade/part shade, med soil, host plant for monarch butterfly, a milkweed for shade!	<b>sold out</b>
asclepias incarnata	swamp/red milkweed	Qt	pink blooms, June/July, 3'-5', full/part sun, average to moist soil, attracts numerous pollinators, host plant for monarchs	ready
asclepias incarnata	swamp milkweed 'ice ballet'	Qt	white flowers June/July, moist soil, tolerates clay, attracts pollinators/monarchs	<b>sold out</b>
asclepias speciosa	showy milkweed	Qt	pink/purple flowers, May-Sept, 2-4', full sun, monarch host plant	plugs
asclepias syriaca	common milkweed	gal	pink clusters of fragrant flowers, June-July, 2'-4', full sun, avg to dry soils, host plant for monarch	gal and plug
asclepias tuberosa	butterfly milkweed	Qt	Orange blooms June-July, full sun, average to dry soils, drought tolerant, attracts many butterflies/pollinators, host plant for monarchs	<b>sold out</b>
asclepias tuberosa	butterfly milkweed 'gay butterflies'	Qt	orange/red/yellow blooms June-July, full sun, average to dry soils, drought tolerant, attracts many butterflies/pollinators, host plant for monarchs	<b>sold out</b>

asclepias tuberosa	butterfly milkweed 'hello yellow'	Qt	yellow blooms June-July, full sun, average to dry soils, drought tolerant, attracts many butterflies/pollinators, host plant for monarchs	dormant
asclepias verticillata	whorled milkweed	Qt	white or greenish-white blooms, Jul-Sept, 2', full sun to part shade, avg to dry soils, attracts numerous pollinators, host plant for monarch	few left
asclepias viridis	Spider Milkweed	Qt	Green blooms, May-June, 12", full sun to part shade, med to dry soil, host plant for monarch	sold out
aster azureus	sky blue aster	Gal	light blue-violet blooms, fall, 2-3', sun, dry to med soil, tolerates rocky soils	ready
aster 'Bridal Veil'	Bridal veil aster	Qt	Numerous white blooms on arching/spreading stems, fall, up to 2', sun to part sun, tolerant of dry slopes, salt tolerant, nice for cascading over walls/down a bank	ready
aster cordifolius	blue wood aster	Gal	clouds of blue-violet blooms, early fall, 2'-3', full shade to part sun, avg soil, attracts butterflies	plugs
aster cordifolius 'Avondale'	Avondale' blue wood aster	Gal	light blue blooms, early fall, 2-3', full to part shade, avg soil, attracts butterflies	sold out
aster divaricatus	white wood aster	Gal	white blooms, Aug-Sept, 1-2.5', part to full shade, med to dry soil, attracts butterflies	ready soon
aster divaricatus	white wood aster 'Eastern Star'	Gal	white blooms on mahogany stems, fall, 18"-24", shade/part shade, moist to dry soils, attracts butterflies	sold out
aster ericoides	Heath aster 'Snow Flurry'	Gal	white blooms, Sept-Oct, 6"-8", mat-forming groundcover, full sun, drought tolerant	plugs
aster laevis	smooth aster	Gal	violet blooms, late summer, 2-3', sun, avg/dry soil, upright form and generally clean foliage	ready
aster laevis	Bluebird' smooth aster	Qt	violet blooms, late summer/fall, 3-4', avg/dry soil, attractive to butterflies/pollinators, deer resistant, generally pest-free foliage, earned #1 ranking in Mt Cuba Center aster trial	ready
aster lateriflorus	Lady in Black' calico aster	QT	pale pink to white daisy-like blooms, dark stems and tint of purple to foliage, late summer-fall, 3-4', sun to part shade, dry to moist soil, attractive to pollinators/butterflies, deer resistant	ready
aster macrophylla	big leaf aster	Qt	violet blooms, late summer – fall, 1-3', full to part shade, dry to moist soil, attracts butterflies/pollinators	ready
aster macrophylla	Twilight' big leaf aster	Gal	large lavender-blue blooms on reddish stems, fall, 2-3', sun to part shade, dry to moist soils	ready
aster novae-angliae	New England aster	Qt	Pink-purple blooms, fall, 3-6', full sun, med soils	ready
aster novae-angliae	Aster 'Purple Dome'	Gal	dark purple blooms, fall, 1.5-2', full sun, med soil	ready
aster novae-angliae	Aster 'Harrington's Pink'	Gal	pink blooms, fall, 3-6', full sun, avg soil, drought tolerant, deer resistant, attracts butterflies	ready

aster novae-angliae	Aster 'Violetta'	Gal	deep violet-purple blooms, fall, 4-5', full sun, avg soil, deer/rabbit resistant, attracts butterflies	ready
aster novi-belgii	New york aster	Qt	pink/purple/white blooms, Aug-Sept, 3'-5', full sun, avg to moist soil, attracts butterflies/pollinators, nice with fall mums	<b>sold out</b>
aster oblongifolius	Aromatic aster 'Raydon's favorite'	Qt	Blue-purple blooms, Sept-Oct, 2'-3', sun to part shade, tolerant of dry/poor soils	ready
aster oblongifolius	Aromatic aster 'October Skies'	Gal	light blue flowers, fall, 1.5-2', sun to part shade, tolerant of dry/poor soils	ready
aster puniceus	Purple-stemmed/swamp aster	2 Qt	purple daisy-like blooms on reddish-purple stems, late Aug – Oct, 3'-6', moist soil, full sun	ready
aster umbellatus	Flat-topped white aster	Qt	clusters of white, daisy-like blooms, late Aug – Sept, 2'-5', moist soil, full sun to part shade, attractive to bees/butterflies	ready
aster 'wood's pink'	wood's pink' aster	Qt	clear pink flowers with gold centers, fall, 12", med to moist soil, sun to part shade	ready
aster 'Little Carlow'	Little Carlow blue wood aster	Qt	blue/purple blooms with yellow centers, Sept-Oct, 1.5-2', full sun, medium soil, a cross of a. cordifolius and a. novi-belgii	<b>few left</b>
astilbe biternata	Appalachian false goat's beard	2 Qt	creamy white flowers, late spring/early summer, 4-6', full to part shade, avg to moist soil	<b>ready</b>
baptisia australis	Blue false indigo	Qt	blue blooms, late spring/early summer followed by interesting seed pods, 3-4', sun to part shade, med to dry soil, attractive to butterflies, drought tolerant, rabbit resistant	ready
baptisia 'Dark Chocolate'	Dark Chocolate' false indigo	Gal	dark purple to deep brown blooms, late spring/early summer, 3', sun/part sun, avg to poor soil	<b>sold out</b>
baptisia lactea	white false indigo	2 Qt	white blooms, bluish stems, Jun-July, 3'-5', med to moist soil, full sun	<b>sold out</b>
baptisia tinctoria	yellow wild indigo	Gal	yellow blooms, blue-green foliage, summer, sun/light shade, 3', deer resistant, drought tolerant	<b>sold out</b>
blephilia ciliata	downy wood mint/horsemint	qt	tiered clusters of lavender/pink blooms, June-Aug, 1-2', sun to part shade, med to dry soils, very attractive to a wide variety of pollinators (listed in '100 Plants to Feed the Bees' from the Xerces Society), drought tolerant	<b>a few avail</b>
blephilia hirsuta	hairy wood mint	Qt	tiered clusters of white blooms, late summer/fall, 3', part to full shade, med to moist soils, good pollinator plant	ready
cacalia atriplicifolia	Pale Indian plantain	2 qt	White blooms, late summer/fall, 3 - 7', full to part sun, med to dry soils, purplish stems, bottom of leaves silvery	ready
callirhoe involucrata	wine cups/poppy mallow	qt	magenta flowers, summer, 6-8", full sun to part shade, dry to med soils, tolerant of poor/rocky soils and drought, makes a trailing groundcover, host plant for gray hairstreak butterfly and checkered skipper	ready, buds and blooms

Sheet1

campanula rotundifolia	harebell	Gal, Qt	blue blooms, June-Sept, 12"-15", sun to part shade, avg to moist soil, tolerates clay	<b>sold out</b>
cassia (senna) hebecarpa	wild senna	Qt	yellow blooms, July-Aug, 4'-6', full sun, med to moist soil, tolerates clay soil, seed pods attract upland game birds (such as turkey)	<b>sold out</b>
caulophyllum thalictroides	blue cohosh	Qt	green/yellow blooms in spring turning to blue berries, blue/green foliage, 1'-2', part to full shade, medium soil	ready
chelone glabra	white turtlehead	Qt	white blooms, late summer/fall, 2'-4', full to part sun, prefers moist soil, good for rain gardens, host plant for Baltimore checkerspot butterfly	quarts and plugs
chelone lyonii	pink turtlehead	Qt	pink blooms, mid-late summer, 2'-4', sun to part shade, med to moist soil	<b>sold out</b>
chelone lyonii 'Hot Lips'	Hot Lips' pink turtlehead	Qt	pink flowers, late summer, 2-3', sun to part shade, med to moist soils, dark green foliage/dark stems	ready
chelone lyonii 'Tiny Tortuga'	pink turtlehead 'Tiny Tortuga'	Qt	pink blooms, late summer, 12-15", sun to part shade, moist soil	one left
chrysogonum virginianum	green and gold	Qt	yellow blooms on dark green foliage, spring, 6" (ground cover), shade/part shade, moist/average soil	<b>sold out</b>
chrysogonum virginianum	Pierre' green and gold	Qt	yellow blooms, spring, 6-8" (ground cover), shade/part shade, moist/avg soil	few left
coreopsis lanceolata	Lanceleaf coreopsis	Qt	golden yellow blooms, late spring-summer, full sun, dry to moist soils, drought resistant, deer resistant, short-lived perennial that easily reseeds, important nectar/pollen source, birds eat seeds	ready
coreopsis 'Gilded Lace'	Gilded Lace' tickseed	Qt	golden-yellow blooms for several weeks, summer – fall, fine textured foliage, 4-5', sun, dry to moist, attractive to pollinators, good resistance to disease, performed well in Mt Cuba plant trials	ready
coreopsis 'Red Satin'	Red Satin' tickseed	Qt	red blooms, fine foliage, summer, 15-18", sun, dry to med soi	ready
coreopsis rosea	tickseed 'American dream	Qt	medium pink flowers June-Aug, moist but well-drained soil, attracts butterflies	ready
coreopsis 'Mercury Rising'	Mercury Rising' tickseed	Qt	velvety dark red flowers later developing white streaks, mid-summer to fall, 12-18", sun	<b>sold out</b>
coreopsis 'Moonbeam'	Moonbeam' tickseed	Qt	pale yellow flowers and fine green foliage, summer, 15", sun, med soil	ready small
coreopsis pal. 'Summer Sunshine'	Summer Sunshine' tickseed	Gal	golden blooms, late summer/fall, 3-4', sun, moist soils, highly rated in Mt. Cuba coreopsis trials	ready
coreopsis 'Route 66'	Route 66' tickseed	Qt	yellow blooms with a ring of burgundy at the crown fading towards the tips, mid-summer-fall, 24", sun, med soil	<b>sold out</b>

coreopsis tinctoria	Plains coreopsis/tickseed	Qt	Yellow blooms with red centers, summer to fall, 2-4', sun, dry to med soil, tolerant of poor soils, self seeds	<b>sold out</b>
coreopsis trip. 'Gold Standard'	Gold Standard' tickseed	Gal	Yellow blooms, late summer/fall, up to 6', sun, avg to dry soil, upright form, high rating in Mt Cuba trials	<b>ready</b>
coreopsis 'Uptick yellow and red'	Uptick yellow and red' tickseed	Qt	Yellow blooms with a dark purple/red eye, summer to early fall, 12-14", drought tolerant	<b>ready</b>
cornus canadensis	bunchberry	Plug/Qt	white blooms in spring, red berries late summer/fall, spreads to form groundcover, part to full shade, acidic soil	<b>sold out</b>
delphinium exaltatum	tall larkspur	Qt	Violet blue blooms, Jun-Sept, 3'-6', sun to part shade, average to moist soil, attracts butterflies, cut flower	<b>sold out</b>
<b>delphinium tricornes</b>	<b>dwarf larkspur</b>	<b>Qt</b>	<b>Blue to purple flowers, spring, 6-24", rich soils</b>	<b>ready</b>
desmodium canadense	showy tick trefoil	2 Qt	Pink blooms, July/Aug, 3-5', sun to part shade, moist to dry soils, fixes soil nitrogen, attractive to pollinators/butterflies/hummingbirds	<b>ready</b>
dicentra cucullaria	Dutchman's breeches	Qt	white-pink flowers, spring, 6-12", part to full shade, med soil	<b>dormant</b>
dicentra eximia	wild bleeding heart	various	pale pink heart-shaped blooms on lacy blue/green foliage, spring-summer, 1'-2', part sun to shade, med to moist soil, morning sun/afternoon shade best	<b>ready blooming</b>
dodecatheon meadia	Shooting star	4"/Qt	white/pink/lavender blooms, spring, 1', part to full shade, med soil	<b>ready</b>
echinacea pallida	Upright prairie/pale purple coneflower	Gal	pale pink blooms appear drooping, June-July, 2'-3', full sun, drought tolerant, attracts pollinators/butterflies	<b>sold out</b>
echinacea pallida 'Hula Dancer'	Hula Dancer' pale purple coneflower	Qt	blush to almost white blooms with drooping petals and reddish cone, 2-3', sun to part shade, dry to med soils, a favorite in Piet Oudolf designs	<b>ready</b>
echinacea paradoxa	Yellow coneflower	Qt	bright pure yellow blooms with petals drooping from brown cone, early summer, 2'-3', full to part sun, average to dry soils, finches love the seed heads	<b>sold out</b>
echinacea purpurea	purple coneflower	Qt	purple to rose pink blooms with orange cone center, July-Aug, 2'-3', full to part sun, average to dry soils, attracts pollinators, birds, butterflies	<b>ready</b>
echinacea 'Baja Burgundy'	Baja Burgundy' coneflower	Gal	burgundy-red blooms, summer, 18-24", sun, avg to dry soils, attractive to pollinators/butterflies/birds	<b>sold out</b>
echinacea 'Cantaloupe'	Cantaloupe' coneflower	Qt	cantaloupe colored double/pompom blooms, summer, 24-30", sun, avg to dry soil	<b>sold out</b>
echinacea 'Cheyenne Spirit'	Cheyenne Spirit' coneflower	Qt	mix of colors (orange/pink/purple/white/yellow), summer, 18-24", sun, avg to dry soils, attractive to butterflies/pollinators, nice cut flower	<b>sold out</b>
echinacea 'Fiery Meadow Mama'	Fiery Meadow Mama' coneflower	2 Qt	yellow blooms with reddish centers, summer, 2', full to part sun, avg to dry soils	<b>sold out</b>

echinacea 'Flamenco Orange'	Flamenco Orange' coneflower	Gal	orange blooms, summer-early fall, 18-20", full to part sun, avg soils, drought tolerant	<b>sold out</b>
echinacea 'Blushing Meadow Mama'	Blushing Meadow Mama' coneflower	2 Qt	white blooms with a hint of blush pink, summer, 2', full to part sun, avg to dry soil	<b>sold out</b>
echinacea 'Playful meadow mama'	Playful meadow mama' coneflower	2 Qt	dark pink petals with lighter to white tips, red centers, summer, 1-2', sun, med well drained soil	<b>sold out</b>
echinacea 'Fatal Attraction'	Fatal Attraction' coneflower	Qt	magenta-pink blooms, late summer, 2', sun to part sun, med well drained soil, darker stems than the species, petals curve slightly upwards	ready
echinacea 'Green Twister'	'Green Twister' coneflower	Qt	pink/purple/red blooms with lime green/yellow tips, mid-summer to fall, 2'-3', full to part sun, avg to dry soils, a selection of echinacea purp. 'magnus'	<b>sold out</b>
echinacea 'Green Jewel'	Green Jewel' coneflower	Qt	light green blooms, summer, 2', full to part sun, avg to dry soils	<b>sold out</b>
echinacea 'Happy Star'	Happy Star' coneflower	Qt	white blooms, summer, 3', full sun, avg to dry soils	budding
echinacea 'Kismet Red'	Kismet Red' coneflower	Qt	large red flowers, summer, 16-18", full sun	ready
echinacea 'mellow yellows'	Mellow Yellows' coneflower	Gal	light yellow to golden blooms, mid-summer to fall, 2-3', full to part sun, avg to dry soils	<b>one left</b>
echinacea 'milkshake'	Milkshake' coneflower	2 Qt	creamy white double/pompom blooms, July-Sept, 2-3', sun, med, well-drained soil	<b>sold out</b>
echinacea 'Orange Skipper'	'Orange Skipper' coneflower	Qt	orange blooms, summer-early fall, 16-18", full to part sun, avg soils, drought tolerant, this cultivar is attractive to bees/butterflies	<b>sold out</b>
echinacea 'Powwow White'	Powwow White' coneflower	Qt	white blooms, summer-early fall, 1.5-2', full to part sun, avg well drained soils	<b>sold out</b>
echinacea 'Powwow Wild Berry'	Powwow Wild Berry' coneflower	Qt	rose-purple blooms with purple stems, summer, 1-2', full to part sun, avg well drained soil	<b>sold out</b>
echinacea 'Hot Coral'	Hot Coral' coneflower	Gal	hot orange-red flowers, summer, 20-24", sun, avg well drained soils, attractive to butterflies	<b>sold out</b>
Echinacea 'Rainbow Marcella'	Rainbow Marcella' coneflower	Gal	soft orange blooms fading to raspberry pink, summer, 18", full to part sun, avg well drained soil	<b>sold out</b>
Echinacea 'Ruby Star'	Ruby Star' coneflower	Qt	pinkish-red blooms, summer, 2-3', sun, avg well drained soils, stems of this variety often darker than most	ready
echinacea 'Salsa Red'	Salsa Red' coneflower	Gal	red flowers, summer, 1.5-2', sun, avg well drained soils	<b>sold out</b>
echinacea 'Sangrita'	Sangrita' coneflower	Gal	reddish-orange blooms, 18-20", sun, avg well drained soils	<b>sold out</b>
echinacea 'Summer Solstice'	Summer Solstice' coneflower	Qt	Yellow blooms fading to white near the center, 1.5-2', sun, avg well drained soils	ready
echinacea 'Tomato Soup'	Tomato Soup' coneflower	Gal	tomato-red flowers, July-Sept, 2-3', sun, avg well drained soils, attractive to butterflies	<b>sold out</b>

echinacea 'Virgin'	Virgin' coneflower	Qt	white petals w/ green cone, 1-2', sun/part sun, avg well drained soils	<b>sold out</b>
echinacea 'White Swan'	White Swan' coneflower	Qt	white flowers, July-Sept, 2-3', avg well drained soils, sun	<b>sold out</b>
echinacea tennesseensis	Tennessee Coneflower 'Rocky Top	Qt	Pinkish-purple blooms, June-Sept, 2'-3', tolerant of very alkaline soils, full sun, well-drained soils, drought tolerant	plugs ready
epilobium angustifolium	fireweed	Qt	pink blooms Jul-Sep, 2'-6' tall, med/moist soil in full sun, attracts hummingbird, pollinators	<b>sold out</b>
erigeron pulchellus	Lynnhaven Carpet' robin's plantain	Qt	lavender-white fringed daisy-like flowers, gradually fading to white, spring, 12-15", part sun to shade, moist to dry soils, deer/drought tolerant, attracts pollinators/butterflies	ready
eriogonum allenii 'Little Rascal'	Little Rascal' share barren buckwheat	Plug/Qt	clusters of yellow blooms, summer, 1.5-2', well-drained soils, drought tolerant, long blooming, attracts pollinators, good for rocky sites	ready small
eryngium yuccifolium	rattlesnake master	Gal	Bluish-silver blooms Jun-Sept, 4-5', prefers hot, dry sites	ready
Erythronium americanum	trout lily	Qt	yellow blooms, Apr-may, 6", med/moist soil, shade/part shade	going dormant
eupatorium 'Bartered Bride'	Bartered Bride' joe pye weed	Gal	white blooms, late summer/fall, 6-8', sun to part shade, med to moist soil, attractive to pollinators, highly rated in plant/pollinator trials	ready
eupatorium coelestinum	mist flower/hardy ageratum	Qt	blue/lavendar blooms, Sept-Oct, 2'-3', sun-shade, avg to moist soil, late season pollinator attractor, in moist soil can spread to form groundcover	ready a few weeks
eupatorium dubium	'Little Joe' joe pye weed	Gal	Mauve-pink flowers, late summer/fall, 3-4', sun to part shade, med to moist soils	<b>few left</b>
eupatorium dubium	coastal joe pye weed	Qt	2-5' tall, 2' wide, mauve-pink blooms, mid to late summer, moist to wet soil, sun to part shade	plugs
eupatorium hyssopifolium	Hyssop leaf thoroughwort	Qt	clusters of white flowers, Aug-Sept, 2'-4', full to part sun, med to dry soils, tolerates drought, attractive to pollinators, deer resistant	<b>sold out</b>
eupatorium perfoliatum	Boneset	2 Qt	flat clusters of white blooms, July-Sept, 3-4', attracts butterflies, tolerant of wet and clay soils	<b>ready</b>
eupatorium 'Phantom'	Phantom' Joe Pye weed	Qt	rose-purple blooms, summer, up to 4', sun to part sun, moist to avg soil, butterfly nectar plant	<b>ready</b>
eupatorium purpureum	sweet joe pye weed	Qt	rose-pink blooms, late summer, 4-7', sun to part shade, dry to moist soils, more tolerant of dry soils and shade than most Joe Pye weed, butterfly nectar plant	<b>ready</b>

eupatorium 'Euphoria Ruby'	Euphoria Ruby' joe pye weed	Qt	mauve/pink flowers, mid-summer – fall, 2'-3', avg soil, full sun, attracts butterflies, earlier bloom, more compact and more drought tolerant than the straight species, high rating (4.5 out of 5, list of 'best of the best') in 2019 UGA garden trials	ready
eupatorium purpurea mac.	Joe pye weed 'Gateway'	2 Qt	Mauve-pink flowers, July-Sept, 5'-6', full to part sun, avg to moist soil, butterfly magnet!	ready
eupatorium rugosum	chocolate joe pye/snakeroot	Qt	white blooms on bronze foliage, summer, 3'-4', sun to shade, moist to dry, plant toxic to animals/humans if ingested	a few avail
euphorbia corollata	Flowering spurge aka wild baby's breath	Qt	white flowers resembling baby's breath, late June – Sept, 18" tall, full sun is best, med to dry soil, deer resistant	sold out
filipendula rubra	queen of the prairie	gal/qt	pink blooms, 6'-8', sun, prefers moist but well drained soil	sold out
filipendula rubra	'Venusta magnifia' queen of pr.	gal	pink blooms, 4'-5', sun, prefers moist but well drained soil	sold out
fragaria virginiana	wild strawberry	Qt	white blooms, spring, followed by small edible red berries (a parent plant of the modern strawberry), sun to part shade, med soil, spreading groundcover	ready

heliopsis hel.	Smooth oxeye 'Summer Sun'	2 Qt	yellow semi-double blooms, July-Sept, 3'-4', full sun, moist well drained soil, but drought tolerant when established	<b>sold out</b>
heliopsis hel.	Smooth oxeye 'Summer Nights'	Gal	yellow blooms with reddish centers and red stems, late summer, 3-4', full sun, med to moist soils	<b>sold out</b>
heliopsis hel.	Smooth oxeye 'Burning Hearts'	Qt	yellow flowers with orange centers and dark purple foliage, summer, 3-4', sun to part shade, moist to avg soil, drought tolerant once established, attractive to butterflies and bees	<b>sold out</b>
hepatica acutiloba	sharp-lobed hepatica	Qt	white/pink/pale purple blooms, early spring, 6-8", med soils, part to full shade, good in limestone soils	spring 2022
heuchera americana	Coral bell	Qt	pinkish-green flowers, late spring, 12", part to full shade, well-drained soils, foliage slightly ruffled and veined, turning red in fall, hummingbirds	<b>ready</b>
heuchera x	heuchera cultivars	Qt/Gal	various	<b>ready</b>
heuchera villosa	Coral bell 'Autumn Bride'	Qt	Creamy-white flower spikes, late summer-frost, 2', shade/part shade, med/well-drained soil	<b>ready</b>
hibiscus laevis	rose mallow	Gal	hardy native hibiscus, light pink flowers with dark throat, late summer, 3-6', moist, sunny sites, good for rain garden/wet areas	breaking
hibiscus moscheutos	Disco Belle Red' hibiscus	2Qt	large red blooms, 4-12" across, late summer, 2 – 2.5' tall, full sun, rich moist to wet soils, attracts pollinators/hummingbirds	ready 2 qt and plug

hibiscus varieties	hardy hibiscus	1 gal	Kopper King	<b>sold out</b>
hydrastis canadensis	goldenseal	Qt	white flowers, April-May, 6-12", part shade, med soil, best in rich soils with leaf mold, flowers followed by non-edible red berries	ready
iris cris. 'Alba'	Dwarf crested iris 'Alba'	Qt	White flowers with yellow crest, spring, 6-8", sun to shade, med to moist soils, spreads to form groundcover	<b>sold out</b>
iris cris. 'Tennessee White'	Dwarf crested iris 'Tenn White'	Qt	White flowers with yellow crest, spring, 6-8", sun to shade, med to moist soils, spreads to form groundcover	<b>sold out</b>
jeffersonia diphylla	Twinleaf	Qt	white flowers in spring, interesting foliage, up to 1.5', shade to part shade, med to moist soils	a few ready
lespedeza virginica	slender bush clover	Qt	pink flowers, late summer, 2', sun to part shade, med to dry soils, attracts pollinators, birds eat seeds	ready
liatris ligulastylis	Meadow blazingstar	Qt	Pink to purple blooms, mid to late summer, 3-5', full sun, med to moist soils, a monarch magnet (and many other butterflies)	<b>sold out</b>
liatris microcephala	dwarf blazing star	Qt	Purple blooms, Aug-Sept, 18-24", full to part sun, avg to dry soil, attractive to butterflies	a few breaking
liatris spicata	spike gayfeather	Qt	Pinkish-purple spikes, July-Aug, 3'-5', avg to moist soil, attracts wide variety of butterflies/pollinators	ready
liatris spicata 'Floristan white'	Floristan white' gayfeather	Gal	White spikes, summer, 2-3', sun, avg to moist soils, attractives butterflies/pollinators, nice cut flower	ready
lilium superbum	Turk's cap lily	Qt	orange blooms with maroon spots, mid summer, 4-7', sun, med to wet soils, part shade, attracts hummingbirds	ready
lobelia cardinalis	cardinal flower	Qt	Red blooms, July-Sept, 2'-4', sun to shade, prefers moist soil, attracts hummingbirds	plugs ready
lobelia cardinalis	cardinal flower 'Black Truffle'	Gal	red blooms and burgundy foliage, July-Sept, 3'-4', sun to part shade, prefers moist soil, attracts hummingbirds	ready
lobelia siphilitica	Great Blue Lobelia	Qt	blue-violet blues, July-Sept, 2'-3', sun to part shade, prefers moist soil – attracts butterflies and hummingbirds	plugs and few quarts
lysimachia ciliata	Fringed loosestrife 'firecracker'	Qt	yellow blooms, summer, 2'-3', sun, new foliage maroon turning greener later in summer	a few avail
lysimachia lanceolata purp	Lanceleaf loosestrife	Gal	yellow blooms, 1-2', sun to part shade, med to moist soils, foliage has hints of burgundy	ready
medeola virginiana	Indian cucumber	Qt	small greenish-yellow flowers, late spring, 1-3', part to full shade	ready a few weeks
meehania cordata	Meehan's mint	Qt	Blue-violet blooms, late spring, 6"-10", full shade to part sun, dry to moist soil, groundcover, good native substitute for ajuga	plugs ready
mertensia virginiana	Virginia bluebells	Qt	pink buds forming blue flowers, early spring, 8"-2', part to full shade, moist soils, good early pollinator plant, foliage dies back in summer	a few ready

mitschella repens	Partridgeberry	4"	evergreen groundcover, small white flowers spring, red berries, 3", full to part shade, med soils	<b>sold out</b>
monarda 'balmy purple'	balmy purple' beebalm	Qt	violet-purple blooms, summer, 12", med to moist soils, good powdery mildew resistance	<b>ready</b>
monarda 'bee merry'	Bee Merry' beebalm	Gal	magenta blooms, summer, 12-15', good powdery mildew resistance	<b>sold out</b>
monarda 'coral reef'	Coral reef' beebalm	Gal	coral pink flowers, summer, 3', med to moist soils	<b>sold out</b>
monarda 'fire ball'	Fire ball' beebalm	Gal	red, summer, 24-30", med to moist soils	<b>sold out</b>
monarda bradburiana	Bradbury's/Eastern bee balm	Qt	pale pink blooms speckled w/ purple, late spring, 1'-2', sun to part shade, dry to avg soil, attracts pollinators/hummingbirds	<b>sold out</b>
monarda didyma	bee balm	Qt	<b>the straight species</b> , red blooms summer, 2-4', sun to part shade, med to moist soils, attracts hummingbirds/pollinators, aromatic foliage, not browsed by mammals	<b>sold out</b>
monarda didyma	Bee balm 'Marshall's delight'	Qt	Rose-pink flowers, summer, 3', sun to part shade, average to moist soils, attracts butterflies, pollinators, hummingbirds	<b>sold out</b>
monarda didyma	Bee balm 'Blue Stocking'	Qt	Deep violet blooms, Jun-July, 2'-3', sun to part shade, avg to moist but well-drained soil, attracts butterflies/pollinators/hummingbirds	<b>sold out</b>
monarda didyma	Bee balm 'Gardenview Scarlet'	Qt	Red blooms, mid to late summer, 2'-3', sun to part shade, avg to moist but well-drained soil, better resistance to mildew	<b>sold out</b>
monarda 'Jacob Cline'	Bee balm 'Jacob Cline'	Qt	red blooms, mid to late summer, 3-5', sun to part shade, avg to moist soils	<b>ready</b>
monarda raspberry wine	Raspberry Wine' beebalm	Qt	wine red flowers, 3-4', sun to part shade, avg to moist soils, good mildew resistance	<b>sold out</b>
monarda didyma	Bee Balm 'Purple Rooster'	Gal	Purple blooms, June-July, 3-4', sun to part shade, moist to dry soils, attractive to wide variety of pollinators/butterflies, drought tolerant, 'Purple Rooster' reported as mildew free in Mt Cuba trials	<b>ready</b>
monarda didyma	Bee balm ' White'	Qt	White blooms, July, 2'-3', sun, avg to moist but well-drained soil, attracts butterflies/pollinators/hummingbirds	<b>sold out</b>
monarda fistulosa	wild bergamot	Qt	Lavendar blooms, late summer, 2'-5', full to part sun, dry to moist soil, drought tolerant, aromatic foliage, attracts bees, butterflies, hummingbirds, more resistant to powdery mildew than most	<b>sold out</b>
monarda media	Purple bergamot	Qt	Red/purple/pink blooms (varies), July, 2-3', avg to moist soil, sun to part shade, attracts butterflies/hummingbirds/pollinators	<b>sold out</b>
monarda punctata	horsemint/spotted bee balm	Qt	purple spotted flowers atop stems with pink/lavender/cream bracts, 1-3', sun, moist to dry soils, attractive to pollinators/butterflies/hummingbirds, deer/rabbit resistant	<b>ready</b>

monarda spp.	pink and purple varieties	Qt	unknown varieties, a few red, some pink varieties	<b>sold out</b>
oenothera fruticosa	narrowleaf evening primrose	Qt	red flower buds followed by bright yellow flowers, summer, 1-3', sun to part shade, dry to moist soil, attractive to pollinators and hummingbirds, songbirds eat seeds	<b>sold out</b>
pachysandra procumbens	Allegheny spurge	Qt	white bottlebrush flowers, early spring, 6-12", part to full shade, med soil, gradually spreads to form a groundcover, drought tolerant once established	ready
packera obovata	roundleaf ragwort	Qt	yellow daisy-like blooms, Apr – June, 1'-2', sun to part shade, med to wet soils, foliage semi-evergreen, tinged with burgundy at time, good ground cover	ready
parthenium integrifolium	wild quinine	Qt	white flower clusters, 3'-5', summer-fall, full sun, dry to medium soils	ready
paxistima canbyi	Canby's mountain lover/cliffgreen	Qt	evergreen groundcover, small green flowers, May, 6-12", sun to part shade, good for rocky slopes	ready soon
pedicularis canadensis	Canadian wood betony	Qt	reddish/violet with yellow blooms, 12", Apr-May, full to part sun, med to dry soil, well drained best, attractive to bumblebees	<b>sold out</b>
penstemon calycosus	Calico penstemon	Qt	pale lavender to white tubular blooms, late spring/early summer, 2'-3', part shade, avg soil, attracts wide variety of pollinators/hummingbirds, tolerant of alkaline soils	<b>sold out</b>
penstemon digitalis	beardtongue	Qt	white to pink blooms, late spring/early summer, 3'-4', full sun to part sun, average to dry soil, drought tolerant, attracts bees/butterflies/hummingbirds	<b>sold out</b>
penstemon digitalis	beardtongue 'husker red'	Qt	pale pink/white blooms late spring/early summer, reddish-green foliage, 2-3', sun/part shade, average soil, attracts hummingbirds	<b>sold out</b>
penstemon 'Dark Towers'	Dark Towers' beardtongue	Qt	pale pink/white blooms late spring/early summer, very dark maroon foliage, 2-3', sun/part shade, average soil, attracts hummingbirds	ready
penstemon 'Onyx and Pearls'	Onyx and Pearls' beardtongue	Gal	pale lavender to white blooms, late spring/early summer, 3-4', sun/part shade, avg soil, dark foliage (near black when mature),	<b>sold out</b>
penstemon hirsutus	hairy beardtongue	Qt	pale purple flowers, May-June, 12-18", sun to shade, moist to dry soils, attractive to bumblebees, butterflies and hummingbirds	ready fall
penstemon hir. 'Pygmaeus'	hairy beardtongue 'Pygmaeus'	Qt	pale pink/lavender/white blooms, late spring/early summer, 6", sun to part shade, med soil, good drainage, attracts hummingbirds/bumblebees, compact size for front of border	<b>sold out</b>
penstemon smallii	Small's penstemon	Qt	lavendar/pink blooms, summer, 1'-2', sun/part shade, average soil, attracts hummingbirds, bees, butterflies	<b>sold out</b>

penstemon tubaefflorus	white wand beardtongue	Qt	white flowers, late spring/summer, 1-3', sun/part shade, avg to dry soil, attracts hummingbirds, bees	budding
phlox carolina	phlox 'Minnie Pearl'	Gal	white blooms, early summer, 1-2', sun to part sun, med soil, good resistance to powdery mildew	sold out
phlox carolina	thickleaf phlox 'Kim'	Qt	pinkish/purple blooms, summer, 1'-2', sun to part shade, avg to moist soil, good resistance to powdery mildew	sold out
phlox divaricata	wild blue phlox	Qt	pink/white/lavendar blooms Apr-May, 8"-12", part shade, moist soil, attracts butterflies, fragrant	blooming
phlox divaricata	woodland phlox 'blue moon'	Qt	violet blue blooms Apr-May, 12"-18", part shade, moist soil, attracts hummingbirds, pollinators	blooming
phlox divaricata	woodland phlox 'chattahoochee'	Qt	light violet blue blooms with magenta centers, Apr-May, 12-18", part shade, moist soils	blooming
phlox divaricata	woodland phlox 'may breeze'	Qt	light blue to white blooms Apr-May, 10"-12", part shade, moist soil, attracts hummingbirds, pollinators	sold out
phlox glaberrima	Morris Berd' smooth phlox	Gal	bright pink flowers, late spring/early summer, 2-3', sun to part shade, moist to dry soil, excellent disease resistance, nice maroon foliage in fall, good rating in Mt Cuba and Chicago Botanic Garden Trials, similar to phlox paniculata but more compact, narrower foliage	plugs ready
phlox maculata	wild sweet william/meadow phlox	Qt	pink-violet blooms, late summer to fall, 2-3', sun to part shade, moist soils, fragrant, spreads gradually, attracts butterflies, good powdery mildew resistance	ready
phlox paniculata	garden phlox 'Jeana'	Qt	lavendar/pink fragrant blooms, June to late summer, 3'-5', avg to moist soil, good resistance to powdery mildew, butterfly magnet	ready
phlox pan. 'Blue Paradise'	phlox 'Blue Paradise'	Gal	pale blue to deep violet blooms, summer, 2-3', sun/part shade, med to moist soil, attracts butterflies	sold out
phlox stolonifera	Creep. Phlox 'Blue Ridge'	Qt	lavender-blue blooms, late-spring to early summer, 6-8", med to moist (but well-drained) soil, part to full shade, attractive to butterflies/hummingbirds, drought tolerant once established, can gradually spread to form groundcover	plugs ready
phlox stolonifera	Creep. Phlox 'Home Fires'	Qt	Deep pink flowers starting in Apr, 6-10", shade to part shade, moist well-drained soil, attracts butterflies/pollinators	few left
phlox stolonifera	Creep. Phlox 'Sherwood Purple'	Qt	Purplish-blue flowers starting in Apr, 6-10", shade to part shade, moist well-drained soil, attracts butterflies/pollinators	sold out
phlox subulata	Moss phlox	Qt, Gal	groundcover phlox with semi-evergreen foliage, spring, sun to part shade, well-drained soil, tolerates poor soils, several varieties available	ready

physostegia virginiana	obedient plant	Qt	pink flowers spikes bloom late summer/fall, 3'-4', full sun, tolerates wet clay soil, but fine in average soil, can spread if happy	ready, also bareroot clumps
physostegia virginiana	obedient plant 'miss manners'	Qt	white flower spikes bloom late summer/fall, 2'-2.5', full sun, medium soil, tolerates moist, less aggressive	ready
podophyllum peltatum	Mayapple	Qt	white blooms, Apr-May, 1-1.5', part to full shade, med soil, edible fruit after flowering	ready
polemonium reptans	Jacob's ladder	Gal	light blue flowers, late spring, 12"-18", shade/part sun, average to moist soil, forms groundcover	sold out
polemonium reptans 'Stairway to Heaven'	Stairway to Heaven' jacob's ladder	Gal	same as above, but with variegated foliage	ready blooming
polemonium 'Blue Pearl'	Jacob's ladder	Qt	light blue flowers, late spring, 10-12", shade/part sun, avg to moist soils, forms groundcover	sold out
porteranthus trifolius	Bowman's root/Indian physic	Qt	White-pink blooms on red stems, late spring/early summer, 2'-3', shade to part sun, bronze-red fall foliage	sold out
prunella vulgaris	Magdalena' self heal	Qt	purple blooms, summer to fall, 6", avg to moist soils, sun to part shade, attracts bees and butterflies	ready
pycnanthemum flexuosum	Appalachian mountain mint	Qt	Silver-white blooms, late summer/fall, 2'-3', full to part sun, moist to dry soil, more clump forming than most mountain mints, nice fall foliage color, host plant for gray hairstreak, attracts pollinators	sold out

muhlenbergia 'White Cloud'	White Cloud' white hair grass	Gal	soft clouds of airy ivory flower heads on blue-green foliage, 3-4'	<b>sold out</b>
panicum virgatum	Switchgrass ' Shenandoah'	Qt	green foliage turns to red late summer/fall, 2'-3', full to part sun, avg to moist soil, drought tolerant when established, good substitute for non-native ornamental grasses (miscanthus, blood grass, etc)	ready
panicum virgatum	switchgrass, other varieties	Qt/Gal	Heavy Metal, Rotstrahlbusch, Purple tears avail	<b>sold out</b>
schizachrium scoparium	little bluestem	Qt	green/blue/purple turning red/orange in fall, white seed heads Aug-Oct, 3'-4', full sun, avg to dry soil, well drained	<b>sold out</b>
schizachrium scoparium	little bluestem 'The Blues'	1 Qt	Blue-green foliage with reddish tints, turning burgundy red in fall	<b>sold out</b>
schizachrium scoparium	little bluestem, additional varieties	Qt	Jazz' - blue/gray foliage, burgundy-red fall color, 2-3' upright clumping form, silvery-white seed heads in fall	ready
sorghastrum nutans	Indian grass	Gal	upright clumps of slender blue-green foliage, turning yellow/gold in fall, sun, moist to dry, 3-4'	ready
Indian Steel' sorghastrum	Indian Steel' indian grass	Gal	same as above but with showier steel blue-green foliage	ready
sporobolus heterolepis	prairie dropseed	Qt	fine textured, green hair-like foliage, 2'-3', drought tolerant, nice fall color, seeds attract birds,	<b>sold out</b>
<b>Shrubs/Sm. Trees</b>	<b><i>Check our Tree/Shrub Special Order List for full list of available trees/shrubs</i></b>			
Aesculus parviflora	bottlebush buckeye	2 gal	white flower, summer, 8-12', part to full shade, med to moist soil, attractive yellow fall foliage, large compound leaves, intolerant of dry sites	<b>one avail</b>
Aesculus pavia	Red Buckeye	1 gal	Red flower clusters, late spring, 12-15', sun to part shade, med soil, attracts hummingbirds	plugs ready
Amelanchier canadensis	Serviceberry/Shadblow	1 gal	large shrub/small tree, white spring flowers, edible june berries and fall color, attracts pollinators and birds	a few available
Amelanchier laevis	Allegheny serviceberry	1 gal	large shrub/small tree, white spring flowers, edible june berries and fall color, attracts pollinators and birds	special order only
Amelanchier stolonifera	Running serviceberry	Qt	white flowers, spring, followed by edible red fruits, nice fall color, 4-5', sun to part shade, med soil, spreading by suckers to form a low thicket	<b>sold out</b>
Aralia nudicaulis	Wild sarsaparilla	gal	white flowers, spring, followed by small berries, 18-24", part shade to shade, dry to moist soil, spreads by suckers	breaking
Aralia racemosa	Spikenard	1 gal	clusters of white flowers, berries follow, 3-5', med soil, full to part shade	<b>ready</b>
Aronia arbutifolia	Red chokeberry	1 gal	white spring flowers, red berries persisting into fall, red leaves fall, attracts pollinators, native sub for burning bush	a few available

Aronia melanocarpa	Black chokeberry	1 gal	white flower clusters in summer, becoming dark purple/black berries, nice reddish fall foliage	a few available
aronia mel. Varieties	Ground hog' , 'Low Scape Mound'	3 gal	same as above, but compact (only 1-3')	special order only
Callicarpa americana	American beautyberry	1 gal	small lavender/pink blooms followed by vibrant purple berries in late summer/fall, 3'-6', sun to part shade, medium soil, may die back to the ground in harsh winters	a few in stock
Callicarpa americana 'Welch's pink'	American beautyberry 'Welch's pink'	1 gal	same as above but <b>pink berry</b> form	<b>sold out</b>
Calycanthus floridus	sweetshrub/caroline allspice	1-2 gal	Unique dark red/brown blooms with strong fragrance in late spring, tolerates clay soil, very adaptable, 6-10', grown from cuttings of highly fragrant parent plant	ready
Calycanthus floridus 'Athens'	sweetshrub 'Athens'	1 gal	yellow-flowered form of the above	<b>sold out</b>
Ceanothus americanus	New Jersey tea	1 gal	White blooms May-June, 3'-4-, sun to part shade, med to dry soil, drought tolerant	special order only
Cephalanthus occidentalis	Common buttonbush	2 gal	white round blooms in June, moist/wet soils in full sun/part shade, attracts bees/butterflies	a few in stock
Clethra acuminata	Cinnamon pepperbush	gal	white blooms, mid to late summer, 6-12', part shade, dry to wet soil, prefers acidic, attractive yellow fall foliage, interesting bark	<b>sold out</b>
clethra alnifolia	Sweet pepperbush	gal	white blooms, late summer, 3-8', sun to part shade, med to wet soil, tolerant of full shade, attractive to pollinators/butterflies, nice fall color	special order only
Cornus amomum	silky dogwood	1 gal	yellow/white blooms in late spring/early summer followed by white to blue berries, 6'-12', sun to part shade, med to moist soil	special order only
Cornus drummondii	rough-leaved dogwood	1-2 gal	yellow-white blooms, late spring, white berries, 6-15', sun to part shade, med to moist soil, tolerant of poor/dry soils, tolerant of limestone soils, birds eat berries	a few in stock
Cornus racemosa	gray dogwood	2 gal	white blooms, May-June, 10-15', sun to part shade, white berries in fall, fall foliage purple/red	special order only
Euonymus americanus	Strawberry bush/hearts a bustin	Qt	greenish/yellow blooms, late spring, followed by attractive and unique fruit, 4-6', part shade, attractive fall foliage	a few small
Euonymus atropurpureus	Eastern wahoo	Qt	purple/red blooms, summer, followed by attractive fruit, 12-20', sun to part shade, med soil, nice fall foliage	one left small
Fothergilla gardenii	Dwart witchalder	1 gal	white blooms in spring, 1.5'-3', sun to part shade, medium soils, fall foliage shades of red/orange/yellow	special order only
Gaylussacia baccata	Black huckleberry	Qt	flowers in spring, black berries in summer, nice fall color, 1-3', prefers acidic soil	ready

Gaylussacia brachycera	Box huckleberry	Qt	white flowers late spring/summer, berries in summer, 6-8", spreads to form colony/groundcover over time, acidic	<b>sold out</b>
Hamamelis virginiana	Witchhazel	1 gal	yellow blooms, fall, 15-20', sun to part shade, medium soil	special order only
Hydrangea quercifolia	Oakleaf hydrangea 'Little Honey'	1 gal	white blooms June/July, 3'-4', part shade, med to moist soil, foliage is golden-yellow to chartreuse in spring, turns shades of red in fall	ready, small
Hypericum prolificum	Shrubby St. John's wort	Gal	yellow blooms, June-Aug, 1'-5', sun to part shade, med soil, tolerates clay soil, dry, sandy and rocky soils	a few available
Ilex glabra	Inkberry	1 gal	evergreen shrub, 5-8', sun to part shade, med to wet soils, prefers acidic soils, black berries	special order only
Ilex verticillata	Winterberry	1 gal	3-12', red berries persist after leaves drop, sun to part shade, med to wet soils, prefers acidic soils	a few in stock
itea virginica	Virginia sweetspire	1 gal	white blooms, June-July, 3'-5', sun to part shade, med to wet soil, red/orange/gold fall foliage, substitute for burning bush	one avail
Kalmia latifolia	Mountain laurel	1 gal	white to rose blooms, late May/June, 5-15', part shade, med soil, acidic soil with good drainage	one avail
Lindera benzoin	Spicebush	1 gal	yellow blooms early spring, full sun/part shade, med soils, yellow fall color, host plant for Spicebush Swallowtail Butterfly	special order only
Myrica pensylvanica	Bayberry	1 gal	5-10', sun to part shade, dry to med soils, produces blue/gray berries attractive to birds	special order only
Neviusia alabamensis	Alabama snow wreath	1 gal	clusters of fluffy white flowers, late spring, 3-6', med soil, sun to part shade, rare	one avail
Rhus aromatica	Aromatic sumac 'Gro-Low'	1 gal	yellow blooms, Apr-May, 2', sun to part shade, medium to dry soils, tolerates shallow/rocky soil, females produce fruit attractive to wildlife, excellent fall color	special order only
Rosa virginiana	Virginia rose	1 gal	pink blooms late spring/summer, fragrant, attract butterflies/pollinators, 5'-6', cold hardy and more resistant to disease	special order only
Rubus odoratus	Purple flowering raspberry	1 gal	rose-purple blooms, summer, 3-6' tall, up to 12' wide (spreads by suckering), sun to part shade, med well-drained soil	ready
salix discolor	American pussy willow	1 gal	white catkins in spring, 6-15', moist to wet soil, full sun	a few in stock
Sambucus canadensis	American elderberry	1 gal	white flower clusters in early summer, black elderberry fruit later in summer	a few in stock
Spiraea alba	Meadowsweet	1 gal	white flower clusters, summer, 3-4', sun to part shade, med to wet soil	special order only
Spiraea tomentosa	Steeplebush	2 gal	pink spike blooms, Jul-Sept, 2'-3', sun to part sun, moist soil, host for columbia silkmoth, good substitute for invasive butterfly bush or japanese spiraea	special order only

Symphoricarpos albus	Snowberry bush	various	small pale pink flowers in summer followed by white berries in late summer/fall, tolerates drought, clay and rocky soils	few left
Symphoricarpos orbiculatus	Coralberry/Indian Currant	1 gal	small greenish-white flower clusters in summer followed by coral-pink to purple berries in late summer/fall, 2-4', shade to part sun, gradually spreads, good for bank stabilization	one left
Vaccinium angustifolium	Lowbush blueberry	Qt	6"-2', prefers moist acidic soil, blooms in spring, followed by fruit, then colorful fall foliage	ready
Vacc. Angust. Var. Pensyl.	Lowbush blueberry	Qt	6"-2', white blooms in spring, fruit in summer, acidic soil,	sold out
Vaccinium corymbosum	Highbush blueberry	1 gal	6'-12', prefers moist acidic soil, blooms in spring, followed by fruit, then colorful fall foliage	special order only
Vaccinium corymbosum	Blueberry varieties	1 L	variety, including 'Blue Gold', 'Chippewa' and 'Northland'	ready
Viburnum acerifolium	Mapleleaf viburnum	1 gal	white flowers mid to late spring, blue/black berries later in summer, magenta fall foliage	a few available
Viburnum cassinoides	Witherod viburnum 'Lil Ditty'	1 gal	fragrant white flowers in spring followed by colorful berries and foliage in fall, compact shrub only 1'-2' tall and wide	one left
Viburnum dentatum	Arrowwood viburnum	1 gal	white flowers in late spring, blue/black fruit later in summer attractive to birds/wildlife	special order only
Viburnum lentago	Nannyberry viburnum	1 gal	white flowers, spring, followed by edible blue-black berries, 14-16', sun to part shade, med soil, nice fall color	special order only
